

Fixtures

GENERAL DESCRIPTION

The SHH SERIES is designed to be suspended individually from the ceiling on a pendant or hook.
Ideal for gymnasiums with optional impact resistant lens.
A high performance lensed/louvered fixture with flexibility and efficiency for retail, commercial and institutional applications.
A wide range of lens and louver styles, lamp and ballast types are available.

CONSTRUCTION

Housing and ends are die formed of heavy gauge cold rolled steel and welded at the seams.
20 gauge N.Y.C. approved is optional.
Finish on housing is baked white enamel with 87% reflectivity.
Door assembly opens down via two concealed hinges and is secured in the closed position by two thumb latches or thumb screws .

DIFFUSER

Standard diffuser is an A12 pattern clear acrylic lens. The standard lens provides low brightness and low glare. Contact the DISC Lighting Team for custom lenses and louvers.

ELECTRICAL SPECIFICATIONS

SHH units are available with rapid start or instant start class P electronic ballasts.
A variety of lamp types and configurations are available.
Voltage options for the U.S. are 120v or 277v, Canadian voltages are available.
All components are U.L. approved,
all SHH series fixtures are U.L listed.

WARRANTY

5 Year warranty on all components except lamps and non-electronic ballasts.
