## Corporate Energy

### **Exit Sign Retrofits - Exit Miser V**

Exit signs are on day and night, 365 days a year, so it makes sense to increase their efficiency. By replacing your existing sign lamps with our Exit Miser V LED retrofit lamps, you cut the power consumption of each sign from 30-50 watts to **2 watts**.

- New ultra-bright LED design gives unbeatable light output
- Uses only **one** watt of energy per bulb
- **25 year unconditional guarantee** - the strongest on the market
- Eliminates maintenance costs
- Operating cost of \$1 per fixture per year
- Easy installation - screws in and out
- Does not require mirrors, tapes, or adapters
- Non-breakable housing
- Available in both red or green LEDs
- Available in Candelabra, Intermediate, DC Bayonet, and Medium bases
- Surge protected
- UL listed. Complies with OSHA, NEC®, and NFP
