

Flashlights

STREAMLIGHT 2AA STREAMLIGHT 4AA STREAMLIGHT 3C

Setting a new standard in high performance alkaline powered flashlights, the ProPolymers are completely waterproof, extremely tough and incredibly bright. Their powerful xenon beams can be activated by either a unique momentary tailcap button or locked on with the rotary face cap switch. A non-slip grip is co-molded into the almost indestructible engineered polymer case

Unique tailcap and bezel switching minimizes two handed operation

Just replace the xenon bulb - not the whole reflector.

All ProPolymers are submersible to 200 feet.

Soft rubber grip makes this flashlight easy to hold.

Rugged engineering polymer for a lifetime of use.

ProPolymer Series:

- 2AA Black
- 2AA Yellow
- 2AA Olive drab

Flashlights

Flashlights quickly slip into a swiveling helmet clamp.

STREAMLIGHT® 2AA										
Battery	Lamp	Material	Color	Weight (with battery)	Dimensions	Run Time	Candlepower	Special Features	Streamlight Product Number	NSN
Two AA alkaline	High-intensity xenon gas filled bi-pin	Shock resistant, engineering grade polymer case with thermoplastic elastomer grip. Unbreakable polycarbonate lens.	Yellow Black Olive drab	3.70 ounces	1.32" (D) x 6.06" (L)	Up to 4 hours of continuous use	Up to 3,500	Waterproof to 200 feet; Dual switches (head and tailcap); Non-conductive and corrosion proof; Pocket clip	2AA Yellow 2AA Black 2AA Olive drab	NSN NSN NSN

STREAMLIGHT® 4AA										
Battery	Lamp	Material	Color	Weight (with battery)	Dimensions	Run Time	Candlepower	Special Features	Streamlight Product Number	NSN
Four AA alkaline	High-intensity xenon gas filled bi-pin	Shock resistant, engineering grade polymer case with thermoplastic elastomer grip. Unbreakable polycarbonate lens.	Yellow Black Olive drab	6.30 ounces	1.69" (D) x 6.38" (L)	Up to 4 hours of continuous use	Up to 6,000	Waterproof to 200 feet; Dual switches (head and tailcap); Non-conductive and corrosion proof.	4AA Yellow 4AA Black 4AA Olive drab	NSN NSN NSN

STREAMLIGHT® 3C										
Battery	Lamp	Material	Color	Weight (with battery)	Dimensions	Run Time	Candlepower	Special Features	Streamlight Product Number	NSN
Three C alkaline	High-intensity xenon gas filled bi-pin	Shock resistant, engineering grade polymer case with thermoplastic elastomer grip. Unbreakable polycarbonate lens.	Yellow Black Olive drab	13.5 ounces	2" (D) x 8.77" (L)	Up to 5.5 hours of continuous use	Up to 12,000	Waterproof to 200 feet; Dual switches (head and tailcap); Non-conductive and corrosion proof; Spring loaded clip (Except special police model)	4AA Yellow 4AA Black 4AA Olive drab	NSN NSN NSN
