

Flashlights

Scorpion®

When you need a serious backup light for an emergency, reach for your Scorpion®. Even if you don't use it for 10 years, its twin lithium batteries can instantly provide up to 6,500 candlepower for a full hour. And its 4.9" machined aluminum case with rubber armored sleeve, 0-ring moisture protection and unbreakable polycarbonate lens make it virtually indestructible. Triple Action tail cap switch, providing single hand operation, spot-to-flood focus and spare xenon bulb are all standard.
