

Ladies and Gentlemen,

This message provides disposition instructions for DSCP Vendor
Recall 013-2003: *Mistic* Brand Orange Carrot Juice.

SUBJECT: DSCP Recall 014-2003: Update for *Mistic* Brand Orange
Carrot Juice

Date Issued: July 24, 2003

Production Dates/Identifying Codes: CT40116E3

Establishment: Mistic Brands Inc.
709 Westchester Avenue
White Plains, NY 10604-3103

Final Disposition:

(1) According to the final laboratory report from the U.S. Army
Veterinary Command Food Analysis and Diagnostic Laboratory,
results from samples of two "opened" containers of the *Mistic*
Brand Orange Carrot Juice revealed contamination by
fermentation/high yeast counts. Laboratory results from an
unopened sample of the juice revealed that the product was
microbiologically safe.

Consuming fermented juice products can cause nausea and vomiting
in some individuals. It appears that the illness associated with
the product was an isolated one, as no other complaints have been
reported with product code CT40116E3 or any other *Mistic* Brand
product code.

(2) Accountable Activities should immediately release product
previously placed on "Medical Hold" and return to inventory for
normal sale/issue/use.

The Point Of Contact for this update is CW3 Melinda Strother,
Consumer Safety Officer, at DSCP-HS. VOICE, DSN: 444-7746/2911,
Commercial (215) 737-7746/2911, or by FAX, DSN: 444-7526, or
Commercial, (215) 737-7526.
