Page 105, para. 10, as renumbered in A0001, add the following:

"11. Make sure to provide an electronic spreadsheet for each zone on which you intend to offer and to indicate distribution fee prices for each option year. Don't forget to include a separate sheet independently breaking out your distribution fees by category, and the completed paper copy of the market basket for that zone (attachments 7-11 as applicable.) You will notice that certain fields are locked. This is because the spreadsheets will be downloaded into another system for evaluation and it is important that you only make entry on the fields which require your response. Also noteworthy is that due to the column headings each item is one higher than in the paper copy of the solicitation (i.e., item 1 is numbered 2 and so on.)

12. For the Mandatory Distribution Fee Categories, we have included items to represent the expected annual quantities for the item category within the market basket for the zones. For these items, you will only need to enter your distribution fee price for the category, and carry the figure out based on the quantity. You will accordingly not need to include a unit price, whether or not an invoice price is submitted, or the distribution fee category for these items only. Lettuce has been used to represent annual lbs. of produce for each zone. An MRE item, and randomly selected Perishable and Semi-perishable UGR-A items, have each been used to represent anticipated quantities of these classes of GFM where applicable.”
