SUPPLIES / SERVICES AND PRICES**I. INTRODUCTION**

A. The Defense Supply Center Philadelphia (DSCP) intends to enter into a contract to supply Subsistence products to the customers supported by this solicitation. The Prime Vendor is responsible for furnishing a full-line of food and beverage items. In addition, the Prime Vendor may also be requested to provide related non-food items to the customers. This solicitation does not include requirements for Fresh Fruits and Vegetables, Fresh Milk and Fresh Bread.

B. This solicitation contains the estimated food and beverage requirements for DoD and non-DoD customers in Puerto Rico.

C. The resulting contract made against solicitation SP0300-01-R-4037 will be an Indefinite Quantity Contract that provides for an indefinite quantity, within stated limits, of specific supplies or services to be furnished during a fixed period, with deliveries to be scheduled by placing orders with the contractor (FAR 16.504(a)). This contract will be for a one (1) year base term and contains provisions for four (4) one-year options. The combined length of the contract, including option years, may total five (5) years. The government intends to make one (1) award, but reserves the right to award more than one (1) contract.

D. Estimated Dollar Value/Guaranteed Minimum/Maximum

1. The estimated dollar value is \$6,239,059.88 for the base term and for each of the option periods. The total estimated dollar value, inclusive of options, is \$31,195,299.40.

2. The guaranteed minimum is 25% of the estimated dollar value. The guaranteed minimum for the base year and each of the option periods is \$1,559,764.97.

3. The maximum ceiling on all resultant contracts is 125% of the estimated dollar value. In the event of emergencies and/or mobilization, the Government reserves the right to unilaterally execute a higher alternate ceiling. The higher alternate ceiling for all contracts is 150% of the estimated dollar value per year.

F. Local Vendor Support

DPSC envisions all customers in Puerto Rico being supported by a local full-line foodservice distributor vendor. Ideally, the vendor will be located in Puerto Rico and will support all of the customers' food and beverage requirements. In order to accomplish this, the local vendor may either offer directly or may act as a subcontractor to a mainland Prime Vendor; however, the primary source of support should be the local vendor. This would enable the customers to receive product within 48 hours of the placement of the order.

G. Prime Vendor Partnership

1. An alternate, but less desirable option, is for the mainland Prime Vendor to ship product directly from its warehouse to the customers in Puerto Rico, while still establishing a partnership with a local full-line foodservice vendor. These firms would work together. The scope of this partnership is varied and flexible, depending upon the resources available at the local vendor's facility. The local vendor would be responsible for supplying certain items to the customers in Puerto Rico and for providing back-up support to the Prime Vendor. In the case of inclement weather, the local vendor will assume the role of the Prime Vendor in supporting customers in Puerto Rico. Ideally, the partnership will include funneling all orders from a preselected list of items to the local distributor for shipment to the customers. Products that originate in the Caribbean are the most likely choice for this list.

a. In addition, the local distributor should also be able to provide emergency support to customers in Puerto Rico in the event the Prime Vendor cannot fulfill its orders in sufficient time to meet the customers' needs.

b. If distribution of shipments to the customers is determined to be insufficient, the local distributor may be called on from time to time to handle distribution of product directly from the port to the customer.

2. If a partnering agreement is the choice of the offeror, then the proposal must include a description of how the vendor will arrange for the pricing of product to be firm at time of order, taking into consideration transportation timeframes. This could include, but is not limited to, holding the price for an extended period of time, e.g. twenty-one (21) day period.

II. ITEMS

A. This solicitation is for total food and beverage support and covers a broad range of items. The successful Prime Vendor will be expected to provide full-line food service items, such as, but not limited to, canned items, dry items, chill items, beverages, ESL and UHT dairy items, frozen bakery products, frozen meats, frozen seafood and poultry, ice cream, eggs, and other dairy products. As previously stated, fresh fruits and vegetables, fresh milk, and fresh bread and bakery items are not covered under this solicitation.

B. In addition, the Prime Vendor may also be requested to provide related non-food items to the customers. The DoD schools are the only customer currently purchasing a line of non-food items from their prime vendor contract. The Government, therefore, reserves the right to add non-food items such as paper products, cleaning supplies, and small equipment and wares at any time throughout this proposed contract term.

III. PRICING

A. Pricing will be based on the following formula:

$$\text{Unit Price} = \text{Delivered Price} + \text{Distribution Price}$$

Definitions:

1. Unit Price - The unit price is defined as the total price charged to DSCP per unit for a product delivered to the government.

2. Delivered Price - The "delivered price" is defined as the last invoice price of a product the prime vendor has paid a manufacturer or supplier for that product delivered to its distribution point. This is sometimes referred to as "landed cost".

3. Distribution Price - The distribution price is defined as a firm fixed price, offered as a dollar amount, which represents all elements of the contract price other than the delivered price. The distribution price typically consists of the prime vendor's projected general and administrative costs, overhead, packaging costs, transportation costs from the prime vendor's distribution point, any other projected expenses associated with the prime vendor function, and anticipated profit. This distribution price is intended to reflect the difference between the delivered price and the unit price to deliver the specified product to the ordering activity. This distribution price shall represent the amount to be added to the actual invoice price paid to the manufacturer or supplier by the prime vendor for each food or beverage item. The price submitted can be no more than two (2) places to the right of the decimal point. This dollar amount shall remain constant for the complete term of the contract.

4. Transportation Cost - Firms located in Puerto Rico should indicate into which category the cost of transportation is added, i.e. delivered price or distribution price. CONUS firms using a commercial carrier to transport product to Puerto Rico should also specify this cost. This should be listed separately on the spreadsheet.

B. The majority of customers will be utilizing the Government's ordering system, STORES, (the Subsistence Total Order and Receipt Electronic System). STORES requires that pricing be fixed at the time the order is placed, provided that delivery is requested within the time frame of six days starting the day after the order is placed. If delivery is not requested until after this time frame, pricing will be as of the delivery date.

1. For example, orders placed on 1 March will be priced at time of order, if delivery is required between 2 March and 7 March, inclusive. If delivery is not required until 8 March, or after, the order will be priced with those prices in effect at the time of delivery.

C. Vendors may change prices in their STORES Vendor Item Catalog weekly. The submissions are to be made by Thursday, to be in effect the following Sunday. All price changes must be submitted to DSCP via the 832 EDI Transaction Set. This transmission must be received by Thursday, 1:30 PM Philadelphia time. See Attachment 2, page 133, "EDI Implementation Guidelines" for more information on the

PUERTO RICO – SOUTHEAST REGION

various EDI transaction sets required under this contract. DSCP will review the 832 EDI transaction set to check for price and other changes; however, the accuracy of the vendor item catalog is the responsibility of the prime vendor.

D. Vendors may submit alternate price change submissions (832 Updates). However, it should be noted prices cannot be updated more than once a week. For example, it may benefit both the offeror and the government to submit prices bi-weekly on Thursday. Price changes will only take effect the Sunday following their submission as new catalogs are issued to the customers for Monday morning download.

E. For purposes of this acquisition, prices will be fixed for a one (1) week period if the local vendor supports all of the customers in Puerto Rico. If the mainland Prime Vendor supports the customers in Puerto Rico, then the prices will be fixed for an extended period of time as proposed by the offeror in order to allow for pricing at time of order. If the offeror does not specify a pricing period, then **prices will be fixed for a twenty-one (21) day period**.

IV. OPTIONS

1. There are four (4) one-year options in this solicitation. Acceptance of these options by the successful Prime Vendor is **mandatory**. Distribution Prices must be submitted for each option year, as well as for the base term. The Distribution Prices offered on each option year will be calculated with the delivered price proposed for each evaluated item. The Distribution Price for each option year may be offered as a percentage, increase or decrease, from the base year.

2. Prices will be evaluated inclusive of the options, i.e. the totals for all prices for the base year plus option years will be added together to arrive at the total aggregate dollar value. This dollar value will be used as the basis for evaluating offers.

3. Failure to propose an increase or decrease of distribution prices in the option years will be considered, and evaluated as, a 0% change per option year.

4. The Government reserves the right to make the effective period of the base term of the contract less than an a one (1) year period and to exercise the option less than one (1) year after the award date of the previous contract action, i.e. award of exercise of option.

V. CATEGORIES OF ITEMS

The items to be procured under this contract shall be broken down into separate food categories for purposes of proposing distribution prices. For the Distribution Price Category only, prices are to be offered in the same manner in which you sell the

Distribution prices shall be formatted to no more than two (2) places to the right of the decimal point, for example, \$10.50. Offerors may utilize the Government's food category listing below, or submit their own version of food and non-food categories. However, there is a limit of fifty (50) categories that one may submit. It is highly recommended that this list be utilized; however, deviations will be accepted provided that the additional categories are reasonable and not in excess of the fifty (50) category limit.

This prohibition applies both on a pre-award and post-award basis. XIII. REBATES / DISCOUNTS

A. The following instructions for rebates and discounts refer to those in addition to NAPA's and Food Show Discounts. As discussed in the following sections, NAPA's and Food Show Rebates must be given in the form of a deviated price.

B. Rebates and discounts are to be returned to DSCP when they are directly attributable to sales resulting from orders exclusively submitted by DSCP or its customers. Additionally, any rebates and discounts offered to any commercial

PUERTO RICO – SOUTHEAST REGION

customer or other Government organization shall be given to DSCP or its customers in the form of an up-front price reduction. The discount/allowance shall be reflected via a reduced STORES price, resulting in a lower invoice price to the customer.

C. The Prime Vendor shall be as aggressive as possible in pursuing all rebates, including mail-in coupons and discounts for the customers supported under this contract. Notwithstanding the requirements included herein, the offeror warrants, at a minimum, that DSCP and its customers will receive rebates and discounts equal to or better than the offeror's most favored commercial or other Government customer. The offeror will provide a description of those rebates and discounts meeting the requirements herein as part of its offer in accordance with the provisions outlined in the "Instructions, Conditions and Notices to Offeror's" section of this solicitation.

D. A rebate report shall be provided to the Contracting Officer on a monthly basis. This Rebate report shall be a break out of all rebates by manufacturer, then sorted by customer/dining facility. The final procedures relative to managing and returning lump sum rebates will be based on the final proposal and confirmed after award. The Government, however, reserves the right to audit applicable records to ensure proper administration of the rebate program and ensure that moneys due to the Government have been properly returned in accordance with the offer.

XIV. NATIONAL ALLOWANCE PROGRAM AGREEMENT (NAPA)

A. Definitions:

1. Agreement Holder - the supplier or manufacturer that has agreed to offer discounts to DSCP on product ordered under DSCP Prime Vendor contracts.

2. National Allowance Program - the program implemented by the Defense Supply Center Philadelphia (DSCP) to maximize the leverage of DSCP's buying power and reduce the overall delivered price under Prime Vendor Contracts to the customers of DSCP.

3. National Allowance Program Agreements (NAPA's) – agreements between DSCP and suppliers/manufacturers that identify product category allowances. These allowances or discounts apply only to the delivered/invoice price of the product. The NAPA does not affect the Prime Vendor's distribution price or fee in any way.

B. DSCP has implemented a NAPA Program as part of the Subsistence Prime Vendor program. Under the NAPA Program, DSCP will enter into agreements with suppliers/manufacturers offering domestic products.

C. Under the NAPA Program, Agreement Holders will:

1. Authorize and consent to allow the contractor to distribute its products to ordering activities under the Prime Vendor Program.

2. Offer discounts on the delivered price of the product ordered under Prime Vendor contracts, in the form of deviated allowances, whereby the price to the customer includes the discount. The deviated price is the price that will be submitted via the 832-catalog transaction.

D. NAPA's neither obligate the Prime Vendor to carry, nor the ordering activity to purchase, any of the agreement holders products; however, NAPA terms will apply to any order placed by a customer for products covered by a NAPA, in which case the invoice price must reflect the NAPA.

E. If a Prime Vendor has a pricing agreement/arrangement with more favorable terms and/or pricing structure, then it is required to pass on these savings to the customer.

F. Under a contract resulting from this solicitation:

1. Within five (5) working days from notification of award, the awardee will contact Marty Lieb, Program Manager, NAPA Team, 215-737-4210. The NAPA Team will provide general instructions and a password to access the allowances on the NAPA website.

2. The Prime Vendor agrees to bill the invoice price to the Government as specified by the NAPA allowance and initiates a bill-back to the agreement holder, if any activity orders any product covered by a NAPA. The agreement holder will reimburse allowances to the Prime Vendor within a time period mutually agreeable to the Prime Vendor and the agreement holder.

3. Any disputes involving the NAPA between the Prime Vendor and the agreement holder will be resolved between them according to their own commercial practice; however DSCP will attempt to facilitate any such disputes.

G. The NAPA Program is for the exclusive use of DSCP customers purchasing product under the resultant contract.

XV. FOOD SHOWS

A. DSCP actively participates in vendor Food Shows for the purpose of obtaining food show "allowances". These allowances are negotiated by DSCP with each exhibitor at the Food Show, whether it is a broker representing several firms, the distributor representing a firm, or the manufacturer directly. In addition, other

procedures in accordance with a vendor's normal commercial practice may be used to negotiate the allowances or savings.

B. The Prime Vendor is required to advise the Contracting Officer and/or Account Manager of all Food Shows that are conducted throughout the course of the contract. This includes Annual Shows, as well as Regional and/or Mini Food Shows. The Government reserves the right to participate.

C. Approximately one (1) week prior to the food show, the Prime Vendor shall furnish the Contracting Officer and/or Account Manager the following information:

1. List of brokers/manufacturers attending the Food Show;
2. Map showing the locations of booths;
3. Effective period of the allowances;
4. Statement as to whether the allowances are applicable to all orders placed within the effective period, or for only the amount of product booked; and
5. Usage report for all customers covered by the contract. This data shall represent the same number of weeks as the effective period of the allowances. The data shall be a consolidation of all customers, and be sorted in booth order sequence. At a minimum the following elements are required:

- a. Vendor Part Number
- b. Description of item
- c. Usage quantity
- d. Manufacturer/Brand
- e. Booth Number of the exhibitor and the products they represent.

D. At the end of the Food Show allowance period, the vendor shall submit a Food Show Savings Report, by customer, to the Account Manager and the Contracting Officer. This shall be completed within 3 weeks of the end of the allowance period.

E. Food Show Allowances must be passed on to the customers directly as a deviated price. Accordingly, when the applicable items are ordered, the price must reflect the discount if ordered during the specified time frame. The deviated price is the price that is to be submitted via the 832-catalog transaction. All decreases in price must be submitted via the 832 the week prior to the beginning of the allowance period.

XVI. CUSTOMER SERVICE

A. The Prime Vendor shall treat each and every customer covered under the resultant contract as one of its best customers. Therefore, any treatment and/or

customer service policy given to other essential accounts shall also be given to the customers covered under this contract.

B. The customers in this zone have periodic food menu board meetings and the Prime Vendor may be invited to attend these meetings. At these meetings the customers not only review their internal business practices, but the vendor can utilize this forum to show new products, demonstrate product preparation, provide nutritional information and address any other concerns the customer may have. Offerors shall address how they will take part in these forums and value added services they will employ to enhance these meetings, as requested in the section entitled "Submission Requirements".

XVII. NEW ITEMS

A. If a customer desires to order an item that is not part of the contractor's inventory, the Prime Vendor will be allowed a maximum of thirty (30) days to source the item, obtain a stock number from DSCP (if required) and add the item to its Vendor Item Catalog via an 832 catalog transaction. These items should then become a permanent part of the Prime Vendor's inventory if it appears that these items will be ordered on a regular basis. These items must become a permanent part of the vendor's inventory if the customer guarantees a minimum movement of twenty (20) cases per month.

B. The successful awardee shall assume the responsibility of introducing new food items to the customers, as well as showing cost effective alternatives to their current choices.

XVIII. ADDITIONAL CUSTOMERS

A. The Government reserves the right to add DoD and non-DoD customers in the solicited area to the Prime Vendor contract based on a mutually agreed upon implementation plan.

B. The additional customers cannot increase the dollar value of the contract by more than 25%. It should be noted that the 25% new business would also be allowable at the maximum ceiling and the alternate higher ceiling.

C. To the extent that the customers supported under the contract do not meet the estimated dollar value, the Contracting Officer reserves the right to add more than 25% additional business.

D. Additional customers are limited to those that receive Federal funding.

XIX. CENTRAL CONTRACTS

DSCP's Central Contracting Office administers the contracts for Coca-Cola, Pepsi, and Dr. Pepper Bag-in-Box and canned soda, Food Service Equipment, and the MUSIC items. Additional information and points of contact can be located on the DSCP web page using the following web address:

<http://www.dscp.dla.mil/subs/beverage.htm>

D. During the year, the Contracting Officer may issue individual domestic non-availability determinations when warranted. A notice will be issued to the Prime Vendor as the determination(s) is (are) made. NOTE: Customers are not permitted to make this determination independently.

II. ORDERING SYSTEM

A. Most customers listed in this solicitation are currently using the Subsistence Total Order and Receipt Electronic System (STORES)NT. However, there are some customers which utilize "Stores on the Web", accessed via the Internet.

B. Subsistence Total Order and Receipt Electronic System (STORES)

PUERTO RICO – SOUTHEAST REGION

1. STORES is the Government's translator/ordering system that is capable of accepting orders from any of the Services', i.e. Army, Air Force, Navy, or Marines, individual ordering systems and translating them into an Electronic Data Interchange (EDI) format. In addition, this information is passed to DSCP for the purposes of contractor payment and customer billing. Attachment 2 provides additional EDI information.

2. Customers will be able to order all of their food and beverage requirements through STORES. Some customers i.e., DoD Schools and Job Corps, will also be able to order non-food items through STORES. The system will transmit orders to the Prime Vendor, the DSO (for fresh fruits and vegetables), the bakery (for fresh bread), the dairy (for fresh milk and dairy items) and to DSCP for ration-type items. It may be possible during the life of this contract that all customers will have the opportunity to order the non-food items from STORES.

3. The awardee shall be required to interface with STORES and must be able to support the following EDI transaction sets:

810	Electronic Invoice
820	Payment Voucher Information
832	Catalog (Outbound - Vendor to DSCP)
850	Purchase Order
861	Receipt
997	Functional Acknowledgment

4. A complete description of these transaction sets is included in the "EDI Implementation Guidelines" attached to this solicitation.

5. The vendor shall have access to the Internet and be able to send and receive electronic mail (email).

6. Unit prices and extended prices must be formatted not more than two (2) places to the right of the decimal point.

7. The Prime Vendor is required to utilize the Government's item descriptions in the Electronic Catalog (832 transaction) as well as on its invoices. The Government's format begins with the broad category of item and then continues with a more specific description. For example: "Crinkle Cut Carrots", would be listed as "Vegetable, Carrots, Crinkle Cut".

III. ORDER PLACEMENT

A. Customers shall place their orders to accommodate a “skip day” delivery. An order placed on 1 March would have a required delivery date of 3 March. Orders may be placed with a longer lead-time; however, the minimum lead-time is “skip day”.

B. As part of its Technical proposal, the Prime Vendor shall submit a plan describing how it intends to notify customers of the non-availability of an item. It should be noted that the maximum time frame is 24 hours. If it appears that the vendor does not expect a stock replenishment in sufficient time to fulfill the requirement, the Prime Vendor should offer the customer a substitute of equal or higher quality and of equal or lower cost, or advise them of the not-in-stock position of the item.

IV. PRODUCT QUALITY

A. Acceptance of supplies awarded under this solicitation will be limited to product processed and packed from the latest pack available or the latest seasonal pack during the contract period. All products delivered shall be as fresh as possible and within the manufacturer’s established shelf life (i.e. Best if Used by Date, Expiration Date, or other markings). For annual pack items, products will be from the latest seasonal pack available, unless specifically authorized by the customer.

B. Commercial standards should be used to maintain temperatures appropriate for individual items.

C. Level of Product Quality

1. When designating an item as a match for the DoD item in the schedule of items listed in the solicitation, the item must be:

a. Identical in respect to packaging and packing when the DoD unit of issue is not described by weight (e.g. pound or ounce). For example, NSN 8915-00-286-5483, “Fruit Cocktail, Canned” is described as “Light or Heavy Syrup Pack, US Grade A or B, no. 2 1/2 size can, 24 per case”. Substituting a No. 10 can and modifying the unit of issue ratio in the STORES ordering system cannot fill the requirement for this item. The same holds true for items described as package (PG), or bag (BG).

b. Identical for portion control items, except that pack size may vary. For example, NSN 8905-00-133-5889 “Beef Braising Steak, Swiss” is described as “frozen, formed, portion-cut, not mechanically tenderized, US Choice Grade or higher, 6 oz each, NAMP 1102 or equivalent, from knuckle, inside round, Eye of Round, or Outside Round, 53 lbs. per box”. The requirement for the formed six (6) ounce portion must be identical. However, if the commercial pack size were

PUERTO RICO – SOUTHEAST REGION

a 15-lb. box, it would be acceptable by modifying the unit of issue ratio in the STORES ordering system. In respect to the previous examples, the DoD ordering activities require continuity with the DoD unit of issue for proper inventory and accounting within DoD.

c. Equivalent in respect to grade or fabrication.

2. A substitute item must be of equal or higher technical quality and equal or lower in price.

3. All items must meet or exceed the Government's item description of their assigned Government stock number.

V. QUALITY PROGRAM**A. Supplier Selection**

A supplier selection or certification program shall be used to ensure standardized product quality for each item supplied and/or listed in the stock catalogs, regardless of supplier. The product quality shall be equal to that described in the pertinent item specification. Product characteristics shall be standardized to the extent that variations in flavor, odor, and texture will be minimized.

B. The contractor shall develop and maintain a quality program for product acquisition, warehousing and distribution to assure the following:

1. Standardized product quality;
2. The usage of First-In, First-Out (FIFO) principles;
3. Product shelf life is monitored;
4. Items are free of damage;
5. Correct items and quantities are selected and delivered;
6. Ensure requirements of the Berry Amendment are met;
7. Customer satisfaction is monitored;
8. Product discrepancies and complaints are resolved and corrective action is initiated;
9. Supplier, FDA, or DoD initiated food recalls are promptly reported to customers and DSCP;
10. Compliance with EPA and OSHA requirements;
11. Salvaged items or products shall not be used;
12. Applicable food products delivered originate from a source listed as a Sanitarily Approved Food Establishment for Armed Forces Procurement.

PUERTO RICO – SOUTHEAST REGION**VI. WAREHOUSING AND SANITATION PROGRAM/STORED PRODUCT PEST MANAGEMENT**

The contractor shall develop and maintain a sanitation program and a stored product pest management program for food and other co-located non-food items that comply with industry standard programs such as the Code of Federal Regulations, Title 21, part 110, Food Manufacturing Practices, the Federal Insecticide, Fungicide and Rodenticide Act, the Food, Drug, and Cosmetic Act of 1938 as well as all pertinent state and local laws and regulations. Records of inspections performed by the firm, subcontractor, or recognized industry association shall be maintained and made available to the Government at the Contracting Officer's request. Any findings by the firm or its agent documenting a critical sanitation deficiency shall be reported immediately to the Contracting Officer with an attached report of corrective action.

VII. PRODUCT SANITARILY APPROVED SOURCE REQUIREMENTS

A. Applicable food products, e.g. poultry, dairy and seafood items, delivered to customers listed in this solicitation, as well as any customer added to the Prime Vendor Program, shall originate either from an establishment listed in the "Directory of Sanitarily Approved Food Establishments For Armed Forces Procurements", or one which has been inspected under the guidance of the United States Department of Commerce (USDC) or the United States Department of Agriculture (USDA). For detailed information see Clause 52.246-9P31 "Sanitary Conditions" in this solicitation.

B. The following is the Internet Link to VETCOM'S Directory of Sanitarily Approved Food Establishments: <http://domino1.hcssa.amedd.army.mil/vetcom.nsf>

VIII. CONTRACTOR PRODUCT DESCRIPTIONS

A. At the time of the initial submission of the proposal, the offeror shall provide a set of product technical descriptions [specifications], for each of the "Market Basket" items identified in this solicitation.

B. The technical description must contain sufficient detail to determine the product's salient characteristics for comparison to the item solicited for in the schedule of items. Bid sheets are not considered technical descriptions.

C. Offeror's are required to submit a technical description for the exact Brand Name when the stock number listed in the solicitation specifies that the item is a Brand Name product. For example, if the item listed in the Market Basket specifies "Kellogg's" as the brand name, the technical description submitted must be for "Kellogg's" brand cereal.

D. The Subsistence Prime Vendor Office will determine if the item offered meets the minimum quality standard described.

IX. PRIME VENDOR QUALITY SYSTEMS MANAGEMENT VISITS

A. The Subsistence Prime Vendor Branch will conduct Prime Vendor Quality System Management Visits (QSMV's) to review the contractor's methods used to comply with the terms of the contract and to verify that those terms are being met. QSMV's may include on-site visits to subcontractors and/or product suppliers. The contractor shall make all arrangements for visits by DSCP Prime Vendor Personnel to contractors, subcontractors and suppliers. A copy of DSCP's Standard Operating Procedure for QSMV's is incorporated as Attachment 1.

B. National Meat and Seafood Audits**Basic Audits:**

1. The DSCP National Food Audit Program, covering all Food Classes within a Prime Vendors' catalog (Meat, Poultry, Seafood and Processed Products) functions as a Service and Quality Assurance check for our DOD customers to ensure the War fighters are receiving products of an optimum quality level. The audit objectives focus on the following to ensure:

- (a) Prime Vendor's adherence to contract requirements.
- (b) The quality level of the materials supplied is satisfactory and uniform throughout the DSCP-H Prime Vendor Regions.
- (c) There is no product misrepresentation or substitution.

2. The Audit objectives are accomplished utilizing the expertise of the USDA AMS Meat, Poultry and Processed Products Graders, USDC National Marine Fisheries Service and DSCP-HFS Quality Assurance personnel. Representatives from the above agencies form the DSCP National Food Audit Team.

3. The DSCP National Food Audit is a technical product review and is intended to be a partnership between the customer, Prime Vendor and DSCP-H, providing a platform for continuous quality improvement through a detailed review of selected core items. An informative discussion of the observed items' physical characteristics and deviations from, or compliance with, established quality requirements is provided during the product review. This technical discussion makes possible an understanding of the customers' need for certain quality requirements so that systems supporting the manufacturing and distribution of the item can be tailored to meet these requirements. This approach makes it a win-win for the customer, Prime Vendor and DSCP-H.

4. For each Prime Vendor it is expected that an audit would be conducted once per contract year. This includes the base year of the contract, plus any and all option-years in which the government's option is exercised. The Audits are conducted in a seminar setting with participation from you and your suppliers. The average cost of a

Food Audit is approximately \$9500.00. As a Prime Vendor you will be expected to provide samples of the government's choice up to a dollar value ceiling of \$9500.00. Any expense for the sampled product above these ceilings may be billed to the Government under your contract.

5. Audit Results:

Prime Vendors will be given a detailed report on each product reviewed. It will be the Prime Vendor's responsibility to take immediate action to correct any deficiency uncovered during the audit.

6. Follow-up Audits:

a. Follow up audits may be scheduled within a one-year period of the initial audit, or based on the recommendation of the evaluators of the Basic Audit. If a follow up is required due to the outcome of the initial audit, all samples are to be at the expense of the Prime Vendor.

b. Non-routine follow-up audits may be scheduled if several items do not meet the government's requirements as presented in the catalog descriptions.

c. If the follow-up is routine and based on the Government's program, samples may be billed to the Government under the existing contract.

X. HAZARD ANALYSIS CRITICAL CONTROL POINT (HACCP) PROGRAM

A. Definition

HACCP is a system of preventative controls and scientific testing designed to improve the safety of products from "farm to table". Food and Drug Administration (FDA) and Food Safety and Inspection Service (FSIS) HACCP regulations require industry to verify the effectiveness of its operations by continuous monitoring of the controls established, end item product testing, and careful record keeping of the complete HACCP system. The regulatory agency responsible for designing and enforcing its agency's food safety programs will review each plant's records and conduct other in-plant inspection activities to verify that proper food safety procedures are being followed in accordance with the establishment's HACCP plan. The HACCP-based system requires a commitment by establishments to consistently control operations in the interest of public health.

B. USDA - FSIS HACCP Regulation/Requirements

1. Sanitation Standard Operating Procedure (SSOP): All plants
2. HACCP Plans:
 - a. Large establishments (500 or more employees)

 - a. Very small establishments (less than 10 employees or annual sales of less than \$2.5 million).

C. FDA HACCP Regulation

The regulation requires all seafood companies in the U.S. and importers of seafood products into the U.S. to be currently operating under a HACCP-based program.

XI. JUICE AND DRINK DISPENSERS

A. When requested, the contractor is required to furnish beverage dispensing machines and beverage products, as specified herein. The upkeep of the machines consisting of, but not limited to, labor, transportation, and supplies required to repair and maintain the equipment shall be the sole responsibility of the contractor.

B. The contractor shall furnish mechanically refrigerated dispensing machines and heads suitable for use with the contractor's bag-in-the-box juices and drinks. A sufficient number of machines and dispensing heads shall be installed in the customer's facility to accommodate the specific needs of each ordering activity.

C. The contractor will provide a technically qualified service representative to perform monthly maintenance and quality control inspections on each dispensing system. If more frequent maintenance is deemed necessary, the Prime Vendor must provide this additional service at no additional cost.

D. Any equipment or material furnished by the Prime Vendor shall remain the property of the vendor and must be returned to the vendor at the conclusion of the contract in the same condition in which it was received.

XII. BRAND NAME ITEMS

A. Based on the ordering habits of the customers listed in the solicitation, the current STORES catalog includes numerous Brand Name items. These are items that the customers have expressed a preference for and have been added to the catalog at the customers' request.

B. In an effort to enhance the commercial aspects of the Prime Vendor Program, some items contained in this solicitation's Market Basket are Brand Name items.

C. Offerors are required to submit pricing and technical descriptions for the specific Brand Name item listed in the item description, if applicable.

PACKAGING AND MARKING

I. PACKAGING, PACKING, AND LABELING

Labeling shall be in accordance with commercial labeling complying with the Federal Food, Drug and Cosmetic Act and regulations promulgated thereunder. Shipping containers shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification Code.

B. Semi-perishable items shall be snugly packed in shipping containers that fully comply with the National Motor Freight Classification and Uniform Freight Classification Code, as applicable.

C. All meats, poultry, and seafood will be vacuum packed when practicable. In all instances the packaging must protect the product from freezer burn and contamination.

D. All fresh poultry items will be packed in ice packed cartons or gas-flush cartons.

E. All fresh seafood items will be packed in ice packed cartons.

F. Frozen product must be processed and packed to allow removal of the individual units from the container without damage to that or other units. The intent is to be able to remove only that amount of product required for current needs, without the necessity of defrosting all units.

II. MARKINGS

A. To ensure that the carrier and the receiving activity properly handle and store items, standard commercial precautionary markings such as "KEEP FROZEN", "KEEP REFRIGERATED", etc. shall be used on all cases when appropriate.

B. To the maximum extent possible, nutritional and ingredient labels shall be placed on the individual package.

C. All food and beverage products shall be identified with readable dates (open code dates), or coded dates, as determined by the type of product delivered. For semi-perishable, shelf stable items, open dating is preferred, but code dating is acceptable. Contractors that do not use open dating shall provide a product code number key to the Account Manager and each customer facility. Items other than semi-perishable, shelf stable products must have readable, open code dates clearly showing the use by date, date of production, date of processing/pasteurization, sell by date, Best if Used by Date, or similar markings.

INSPECTION AND ACCEPTANCE

I. INSPECTION AND ACCEPTANCE

A. Inspection and Acceptance of products will be performed at destination. The inspection is normally limited to identity, count and condition; however, this may be expanded if deemed necessary by either the military Veterinary Inspector, Dining Facility Manager, Food Service Advisor/Officer, or the Contracting Officer.

B. All deliveries are subject to military veterinary inspection. In addition, the delivery vehicles will be inspected for cleanliness and condition.

C. The authorized receiving official at each delivery point is responsible for inspecting and accepting products as they are delivered. The delivery ticket shall not be signed prior to the inspection of each product. All overages/shortages/returns are to be noted on the delivery ticket by the receiving official and truck driver. A signature on the delivery ticket denotes acceptance of the product.

D. The contractor shall forward three (3) copies of the delivery ticket with the shipment. The receiving official will use the delivery ticket as the receipt document. Two (2) copies of the signed and annotated delivery ticket will serve as the acceptance document. No invoice may be submitted for payment until acceptance is verified.

II. WARRANTIES

The supplies furnished under the resultant contract shall be covered by the most favorable commercial warranties that the contractor gives to any customer. The supplies and the rights and remedies provided therein are in addition to, and do not limit, any rights afforded to the Government by Clause 52.212-4(o) "Warranty", "Contract Terms and Conditions-Commercial Items" contained in the solicitation.

III. ACCEPTANCE REQUIREMENTS FOR FROZEN ITEMS

A. In order for frozen items to be accepted by the receiving activity, the following criteria must be observed:

1. Packages must be solid, not soft, upon arrival.
2. Container and wrapping must be intact and in a solid condition.
3. Packages must be free of drip and show no evidence of thawing and re-freezing (i.e. watermarks on boxes; off odor) or dehydration.
4. Cello wrapped packages will not be discolored or show other signs of freezer burn.

IV. REJECTION PROCEDURES

The final decision is to be made by the Food Service Officer and/or his/her representative.

C. In the event an item is rejected, the delivery ticket/invoice shall be annotated as to the item (s) rejected. These items shall then be deducted from the delivery ticket/invoice. The invoice total must be adjusted to reflect the correct dollar value of the shipment. Replacements will be authorized based on the customer's needs. To the greatest extent possible, on an as-needed, emergency basis, same day re-delivery of items that were previously rejected shall be made, so that the customer's food service requirements do not go unfulfilled for that day. The re-delivered items will be delivered under a separate invoice utilizing the same call number, clin number, and purchase order number for the discrepant line. These re-deliveries will not constitute an emergency requirement and therefore will have no additional charges.

D. In the event that a product is rejected after initial delivery is made, the prime vendor will pick up the rejected product. Credit due to the ordering activity as a result of the rejected product being returned, will be handled through a receipts adjustment process in STORES. If the vendor has already been paid for the product, a claim will be issued through DSCP's financial system. In all cases, one (1) copy of the credit memo is to be given to the customer and (1) copy of the credit memo is to be sent to the DSCP Account Manager.

1. If a customer requires a one-to-one replacement, no additional paper work is necessary. The vendor delivery ticket/invoice will show that product is a replacement for rejected item. The invoice shall reference the call number, CLIN number, and Purchase Order Number of the originally ordered product. In addition, a copy of the credit memo from returned product is to be attached to the invoice.

E. It is a requirement of this solicitation that product shall be inspected upon receipt as promptly as practicable. However, failure to promptly inspect or accept supplies shall not relieve the contractor from responsibility, nor impose liability on any of the customers, for nonconforming supplies.

F. Supplies transported in vehicles which are not sanitary, or which are not equipped to maintain prescribed temperatures, may be rejected without further inspection.

V. VEHICLE AND CONTAINER REQUIREMENTS

A. The seavans used to transport supplies to the designated port of debarkation shall be inspected for cleanliness by the Prime Vendor prior to stuffing. B. Supplies transported in vehicles that are not sanitary, or that have not maintained the prescribed temperatures, may be rejected at destination without further inspection.

C. Shipping containers shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification Code.

If the price of the substituted item is lower than the price of the item originally ordered, then the vendor shall invoice at the lower price and not the catalog price.

1. Surge

The capability to handle a large increase in case volume for short periods of time with very little lead-time may be required at various times throughout the term of the contract. Services may experience unscheduled arrival of troops, with only a few hours notice, as part of normal operations, where the order requirements could more than double from their normal usage on a given days notice. The timing of these types of surges will be impossible to anticipate. Pricing constraints for items furnished in this fashion shall be the same as those for routine, non-surge orders.

2. Mobilization

The capability to handle full-scale military mobilization or national emergency where-in consumption could easily double or triple the case requirements at any site for a protracted period must also be provided for. The offeror must develop a readiness plan outlining how they would meet this increased workload by, for example using additional suppliers, subcontractors, etc. As with surge support, pricing constraints for items furnished in this fashion shall be the same as those for routine, non-mobilization orders.

3. The Government reserves the right to test the Prime Vendor's Readiness Plan.

4. When units deploy for training exercises outside their zone, their current Prime Vendor will be given the opportunity to supply the unit's requirements. The offeror is required to submit their plan for handling emergency orders; as well as what they actually consider an emergency, and additional costs, if any. The name of the representative and the phone number, mobile phone number, beeper number, email address, or any other method of communicating with the representative, shall be furnished to each of the customers after award.

B. Since many of our customers only have access to the government phone network, it is strongly preferred that a toll free number be provided.

V. DLA MENTORING BUSINESS AGREEMENT (MBA)

A. The DLA MBA Program was designed for prime contractors to provide developmental assistance to small business (SB), small disadvantaged business (SDB), women-owned small business (WOSB) and HUB Zone (HZSB) small business concerns for value added services and/or products. Prime contractors may also mentor Javits-Wagner-O'Day (JWOD) qualified nonprofit agencies for the blind and other severely disabled that have been approved by the Committee for Purchase from People Who Are Blind or Severely Disabled under the JWOD Act.

B. DLA MBA's encourage participation and growth opportunities for small business concerns and JWOD entities in a best value, long-term contracting environment. The submitted plan should consist of one or more agreements between the prime contractor and a SB/SDB/WOSB/HZSB or JWOD workshop that will participate in carrying out the requirements of the prime contract. The opportunities must constitute real business growth, which is measurable and meaningful.

C. Participants

Cite the criteria in selecting a firm or firms with whom to mentor. In addition, include the following information with all submissions:

1. Name, address, and plant location for contract holder and potential SB/SDB/WOSB/HZSB or JWOD participant(s).

2. DLA MBA Agreements shall specifically identify the areas of developmental assistance (i.e. management/technical) that will be provided. The offeror should provide a discussion of the areas chosen for development/enhancement. Describe the scope of the plan, i.e. whether the plan will be specifically related to the requirements contained in the solicitation or will the plan cover other governmental and commercial customers.

3. Offerors shall identify and describe the management control techniques that would be used to insure that contract requirements are met. This should include the record keeping and communication techniques and the methods to be used to control and track performance.

E. Measurement and Reporting

1. Provide milestones for program implementation.

2. Discuss and describe the measurement/yardsticks that will be utilized to determine if program objectives and goals have been met. Projections of successful program measurements should result in:

a. An increase in the dollar value of subcontracts awarded to SB/SDB/WOSB/HZSB and JWOD workshops under DLA contracts.

b. An improvement in the level of participation in DOD, other federal agencies and commercial contracting opportunities.

3. Mentors will be required to submit periodic progress reports on their agreements.

52.212-1 (continued)**(f) Late Submissions, Modifications, Revisions, and Withdrawals of Offers.**

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. Faxed offers are NOT authorized for this solicitation.

2. Paragraph (b), Submission of Offers, is expanded as follows:

(12) Proposal Preparation

(i) Two (2) different techniques shall be utilized when submitting your proposal - an Oral Presentation and a written proposal. Except where otherwise noted, the Technical Proposal shall be orally presented in accordance with the instructions outlined in the "Instructions, Conditions and Notices to Offerors". The Business Proposal must be submitted in writing. The Technical Proposal information required to be submitted in writing must be prepared separately and shall not be combined with the Business Proposal. Proposals that do not provide the required information in the prescribed format may be excluded from further consideration.

<u>VOLUME LIMIT</u>	<u>VOLUME TITLE</u>	<u>NO. OF COPIES</u>	<u>SUGGESTED TIME</u>

(ii) Evaluations for each volume of the proposal will be performed exclusive of one another. Therefore, the Technical Proposal shall contain no reference to cost or pricing data. Conversely, the Business Proposal should not address information requested under an element listed as a technical factor. Cost and price information shall only be contained in Volume II, Business Proposal. Each volume shall be bound separately and labeled appropriately.

(iii) Volume I, Technical Proposal

The following applies to both the written portion of the Technical Proposal as well as the Oral Presentation (See Submission Requirements, Technical Proposal, Volume I)

- (A) The technical proposal must demonstrate the offeror's ability to meet the Government's requirements as set forth in the solicitation. Failure to provide information as requested in any of

the technical factors identified in the solicitation section entitled Submission Requirements may be considered a “no response” and may not be ratable or may warrant a “Poor” rating for the applicable factor, sub factor, element or sub-element.

- (B) Proposals that are unrealistic in terms of technical or schedule commitments, or unrealistically low in price, will be considered indicative of a lack of understanding of the solicitation requirements.
 - (C) Firms should prepare proposals and address elements in the same order as presented in the solicitation section entitled Technical Proposal Evaluation Criteria to facilitate the Government’s review and evaluation of your proposal. Continuation sheets shall clearly identify the solicitation number and the offeror’s name on each page.

- Period of acceptance is 180 days.

4. Paragraph (f), LATE OFFERS is changed to read as follows:

Late proposals and revisions. Any proposal received at the office designated in the solicitation after the exact time specified for receipt of offers will not be considered unless it is received before award is made and:

It was sent by mail or hand-carried (including delivery by a commercial carrier) if it is determined by the Government that the late receipt was due primarily to Government mishandling after the receipt at the Government installation.

It was sent by U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee, not later than 5:00 p.m. at the place of mailing two working days prior to the date specified for receipt of proposals;

There is acceptable evidence to establish that it was received at the activity designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers, and the Contracting Officer determines that accepting the late offer would not unduly delay the procurement; or

It is the only proposal received.

Any modification or revision of a proposal or response to requested information, including any final proposal revision, is subject to the same conditions indicated above.

Notwithstanding the above, a late modification or revision of any otherwise successful proposal that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

Proposals may be withdrawn by written notice (including facsimile) received at any time before award.

5. Paragraph (h), Multiple Awards.

The Government intends to make one award.

52.212-2 EVALUATION--COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

Corporate Experience/Past Performance
Distribution System/Capability
Quality Assurance
Socioeconomic Considerations
DLA MBA Mentoring Program

Technical and past performance, when combined are:

- Significantly more important than cost or price
 Approximately equal to cost or price
 Significantly less important than cost or price

(b) *Options*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced.

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

ADDENDUM TO 52.212-2

Clause 52.212-2 "Evaluation – Commercial Items ", which is incorporated herein in full text, is revised as follows:

1. Paragraph (a) is hereby expanded to read as follows:

However, when proposals become equal in technical merit, the evaluated cost or price becomes more important. As technical merit and the evaluated cost or price become essentially equal, other factors as listed below, may be used as discriminating elements for determining the selection of a source among otherwise substantially equal offers. They are listed in descending order of importance:

- (1) Small Disadvantaged Business Concerns;
- (2) Small Business Concerns which are also Women Owned Small Business Concerns;
- (3) Other Small Business Concerns;
- (4) Other concerns which are Women Owned Business Concerns

2. Add paragraph (d) as follows:

(d) Source Selection and Evaluation Procedures

(1) Summary

Subsequent to the date specified in the solicitation for receipt of proposals, all timely proposals will undergo a technical and business evaluation as described in paragraph (b)(2) below. The Contracting Officer may make a competitive range determination based on these evaluations, and submit it to the Source Selection Authority (SSA) for approval. Unless award is made on the basis of initial proposals, written and/or oral discussions will be conducted with all offerors in the competitive range. Final revised offers resulting from discussions will undergo further technical and business evaluations. Finally, a proposal will be selected for award by the SSA, as described in paragraph (b)(3) below.

(2) Evaluation Process.

(i) Technical Evaluation Process - Offerors are required to present a portion of the technical information orally and to submit the remainder of the technical proposal in writing, as prescribed in the section of this solicitation entitled "Submission Requirements". Each technical proposal will be evaluated by the Technical Evaluation Panel against the technical factors specified in paragraph (a) above. Proposals so technically deficient as to make them technically unacceptable will be rejected as unacceptable, regardless of the cost or price offered. No discussions will be held with rejected offerors, nor will any rejected offeror be given an opportunity to revise its offer to correct deficiencies in order to become acceptable after the date and time specified for the receipt of offers.

PUERTO RICO – SOUTHEAST REGION

(ii) Business Evaluation Process - Each proposal will be evaluated against the requirements of the solicitation. The Government will evaluate limited pricing data with the initial proposals and during discussions, in accordance with FAR 15.4, "Contract Pricing". The Government will evaluate the successful offeror's proposal to determine cost or price realism. Cost or price realism will demonstrate an offeror's understanding of the requirements of the solicitation. Included in this process is the evaluation of options. The Government will evaluate offeror's pricing on the items selected from the list of items referenced in the Schedule of Items. The estimated quantities shall be multiplied by the unit prices to determine the lowest overall cost to the Government. These figures will be totaled to arrive at an aggregate value. Pricing will be evaluated for all option years in the same manner. All five (5) totals will be added together to determine the lowest overall cost to the Government. Distribution prices that do not relate to the market basket items will be evaluated for fairness and reasonableness. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of the options shall not obligate the Government to exercise the option(s).

(3) Selection Process.

The final technical and business evaluation reports will be furnished to the Contracting Officer by the Technical Evaluation Panel. The Contracting Officer will prepare a written recommendation for award and forward it to the SSA. It is the ultimate decision of the SSA to determine which offeror receives the award.

1. Paragraph (a), Inspection/Acceptance, is revised to add the following:
“Inspection and acceptance of products will be performed at destination. The authorized receiving official for each customer is responsible for signing for and accepting products when they are delivered. The final disposition decision rests with the food service officer.”

2. Paragraph (c), *Changes*, is deleted in its entirety and replaced with the following:
(c) *Changes*.
 - (1) The Contracting Officer, at his/her discretion, may unilaterally invoke any of the contingency options set forth in this contract.
 - (2) The Contracting Officer may at anytime, by unilateral written order, make changes within the general scope of this contract in any one or more of the following:
 - (i) method of shipment or packing;
 - (ii) place, manner, or time of delivery.
 - (3) If such change causes an increase or decrease in the cost of, or time required for, performance for any part of the work under this contract, the Contracting Officer shall make equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.
 - (4) The Contractor must assert its right to an adjustment under this clause within thirty (30) days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

 - (5) Failure to agree to any adjustment shall be a dispute under the Disputes Clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract.”

3. Paragraph (i) *Payment*:

[] Delete the 1st sentence and substitute the following: Fast Payment procedures apply. The Government will pay invoices based on the Contractor's delivery of supplies to a post office or common carrier (or, in shipments by other means), to the point of first receipt by the Government.

4. Paragraph (o), *Warranty*, is revised to add the following:
“In the event that a product recall is initiated by the Prime Vendor, supplier or manufacturer, the Prime Vendor should follow the procedures as outlined below:
 - (1) Immediately notify the following personnel:
 - (i) Customers that have received the recalled product

PUERTO RICO – SOUTHEAST REGION

- (iv) DSCP Consumer Safety Officer at 215-737-3845
 - (2) Provide the following information to the DSCP Consumer Safety Officer:
 - (i) Reason for recall
 - (ii) Level of recall, i.e. Type I, II or III
 - (iii) Description of product
 - (iv) Amount of product
 - (v) List of customers that have received product
 - (vi) Name and phone number of responsible person (Recall Coordinator).
 - (3) The Prime Vendor should provide a Final Status Report of Recall, when completed, to the DPSC Consumer Safety Officer.”
5. Paragraph (t), Price Changes, is added as follows:
- (t) Price Changes.
 - (1) Definitions.
 - (i) Unit Price - The total price charged to DSCP per unit for a product delivered to the Government consists of two (2) components: delivered price and distribution price. This price shall not extend more than two (2) places past the decimal point:
 - (ii) Delivered Price - The actual last invoice price of the product paid to the manufacturer/supplier, delivered to the Prime Vendor’s facility.
 - (iii) Distribution Price - The firm fixed price, offered as a dollar amount, which represents all the elements of the contract price other than the delivered price. This distribution price will consist of the prime vendor’s projected general and administrative overhead, profit, packaging costs and any other projected expenses associated with the Prime Vendor function. Offeror’s may only include the cost of moving product to the port if this service is not provided for by the carrier when using a commercial carrier.
 - (2) Effective Period of Prices. The offeror warrants that the unit prices in effect **at the time of order** will be honored for a period of one (1) week if the local vendor will support all of the Puerto Rican customer’s requirements. If the mainland Prime Vendor proposes to support the customers in Puerto Rico, the pricing will be fixed for a longer period of time as proposed by the Prime Vendor in its offer. For firms that do not specify a pricing period, prices will be firm for **twenty-one (21) days**. The vendor may not submit its invoices to DFAS Columbus for payment until notified by the customer that all product has been received in good condition and in the quantities stated on the invoice.

PUERTO RICO – SOUTHEAST REGION

(3) The offeror also warrants that its unit prices are equal to or lower than its most favored customer for similar quantities under comparable terms and conditions. Should price verifications reveal any instances of overpricing, the contractor further agrees to reimburse the Government for that amount.

(4) For the purpose of unit price adjustment, the offeror shall indicate its distribution price per unit of issue for each category of items which shall be expressed as a dollar figure. The distribution price may differ per category; however, each category and the associated items which fall under it, must have the same unit of issue. (The distribution price must always be equal to the unit price less the delivered price.) The distribution price, as proposed in the offer and accepted by the Government, shall remain fixed throughout the term of the contract.

(5) The delivered price for each item is influenced by commercial market forces, such as supply and demand, and competition among suppliers, and may, therefore, fluctuate. Vendors may change prices in their STORES Vendor Item Catalog weekly. The submissions are to be made by Thursday, to be in effect the following Sunday. All price changes must be submitted to DSCP via the 832 EDI Transaction Set. This transmission must be received by Thursday, 1:30 PM Philadelphia time. See Attachment 1: "EDI Implementation Guidelines" for more information of the various EDI transaction sets required under this contract.

(6) Upon request, the Prime Vendor shall furnish to the Government data, as required by the Contracting Officer, to support price changes and to confirm that the contract unit prices under this contract are fair and reasonable and are based on the catalog or market prices which it pays to its suppliers. This supporting documentation shall be in the form of delivered price invoices and unit prices charged to the Prime Vendor's commercial business as well as suppliers' quotations, invoices, catalogs, published price lists and any other information as required by the Contracting Officer.

(7) The Government shall perform price verification analyses from time to time throughout the term of the contract. When requested, the contractor shall provide to the Contracting Officer delivered price invoices. The Prime Vendor shall keep all delivered price invoices for a period of at least one (1) year after issuance of the applicable delivery order. As a minimum, the Contracting Officer shall review the invoice in conjunction with the distribution price to verify the accuracy of the delivery order unit price (i.e. the unit price in effect in the contractor's electronic catalog at the time of delivery order placement).

(8) The delivered price plus distribution price should equal the delivery order unit price. The contractor shall promptly refund any overcharges discovered during this process. Overcharges shall also result in more frequent price verification analyses.

(9) The Prime Vendor shall obtain product from suppliers who can provide

the best value to the Government in terms of price, delivery, and quality. Whenever appropriate, the Prime Vendor shall take advantage of “reduced price specials” and “sales” offered by suppliers, as well as those manufacturers that have a National Allowance Program Agreement (NAPA) with DSCP. A list of NAPA holders is attached to this solicitation.

(10) The requirements of this clause shall also apply to new items added to the Contractor’s electronic catalog after contract award.

NOTE: In conjunction with the above clause, the contractor should note the following: Variable weight items (such as meat and poultry (roasts, turkey, etc.) and lump sum billing can not be receipted in decimals, e. g. 4.6 pounds. Contractors must round using Standard Rounding Methods.

(11) Offerors are advised that the Contracting Officer intends to conduct price verification analysis in the following manner:

(i) Periodically, the Price Verification Team may require the contractor to provide copies of specific invoices from suppliers covering up to 100 items that were previously ordered. These invoices will be used to verify that the Government is only being charged the actual product cost plus the negotiated distribution fee.

(ii) The Price Verification Team will request the above documentation in writing and the contractor will have thirty (30) days after the request to furnish the documentation.

(iii) A report of overcharges and undercharges (if applicable) will be forwarded to the contractor with a request for payment, if appropriate. The Government reserves all rights and remedies provided by law or under the contract in addition to recovering any overcharges.

(iv) The Government may elect to expand the scope of the price verification analysis if overcharges are discovered. The Government may also elect to reduce the scope of the price verification analysis if no overcharges are discovered.

(v) Unit prices shall be limited to a maximum of two (2) decimal places. For evaluation and award purposes, offers containing a unit price of more than two (2) decimal places shall be rounded off to two (2) decimal places. For administrative purposes, the extended line item and total dollar amounts will be rounded to two (2) decimal places and may not precisely reflect the quantity(ies) times the unit price(s). Payment shall be accomplished on a unit price basis.

Protests filed with the agency should clearly state that they are an "Agency Level Protest under Executive Order 12979." (Note: DLA procedures for Agency Level Protests filed under Executive Order No. 12979 allow for a higher level decision on the initial protest than would occur with a protest to the contracting officer; this process is not an appellate review of a contracting officer's decision on a protest previously filed with the contracting officer). Absent a clear indication of the intent to file an agency level protest, protests will be presumed to be protests to the contracting officer.

52.233-9001 DISPUTES: AGREEMENT TO USE ALTERNATIVE DISPUTE RESOLUTION (JUN 2001) DLAD

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and with legal counsel (see DLA Directive 5145.1). Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

This plan will be monitored by the cognizant Defense Contract Management Agency activity as a means of assisting the contracting officer in determining how well the contractor has in fact performed. This determination will be one factor used in the placement of orders against multiple-award contracts and/or the exercise of options in the contract's follow-on years (as applicable). In these cases, the applicable agency, commissary, or activity may reprocur the supplies locally. Ordering officers, however, are not authorized to sign purchase orders or contracts and cannot take any action to charge the account of the contractor unless they are also contracting officers. Only an authorized contracting officer acting on behalf of the agency, commissary or activity can take these particular reprocurment action. Administration of the terms and conditions set forth in the IDC is the responsibility of the DSCP contracting officer. The ordering officer shall also notify the DSCP contracting officer of all terminations and repurchase actions which were processed under the IDC.

**52.217-9P12 OPTION FOR INDEFINITE-DELIVERY, INDEFINITE-QUANTITY
CONTRACT TERM EXTENSION (MAR 2000) DSCP**

(a) Acceptance of the option provision(s)/clauses contained herein is mandatory. Failure to indicate acceptance of the option by annotating the offeror's option price in the schedule or elsewhere in the solicitation will be deemed non-acceptance of the option and may result in rejection of the offeror's entire bid/proposal.

(b) Offerors may offer options at unit prices which differ from the unit prices for the base ordering period. These prices may vary with the quantities actually ordered and the dates when ordered.

(c) The contracting officer may extend the term of this contract for four [4] additional one [1] year period(s) by written notice to the contractor within the time specified in the schedule; provided that the contracting officer shall give the contractor a preliminary written notice of intent to extend at least 60 days before expiration of the contract. The preliminary notice does not commit the government to an extension.

(d) Performance under the option period shall continue at the same performance level specified for the basic contract.

(e) The option to extend the term of the contract shall be exercised not later than three (3) days before the expiration date of the contract.

(f) The option is deemed exercised when mailed or otherwise furnished to the contractor.

(g) If the contracting officer exercises this option, the extended contract shall be considered to include this option clause and the minimum and maximum quantities specified in the award for that option period will apply. The modification exercising the option will also modify DSCP clause 52.217-9P16, Effective Period of Contract-- Indefinite-Delivery, Indefinite-Quantity Contract, to cover the base ordering period and the additional option period(s) exercised to date.

(h) The total duration of any options exercised under this clause shall not exceed one year.

(i) The following provisions apply only to negotiated acquisitions:

(1) If an option has been priced under this solicitation and is to be exercised at time of award of the basic contract, the submission of certified cost or pricing data shall be required prior to award where the combined dollar value of the basic contract and option exceeds \$500,000, unless an exemption thereto is appropriate in accordance with FAR 15.403-1.

(2) Prior to the award of any contract which will contain one or more priced options totaling \$500,000 or more, the submission of certified cost or pricing data covering the basic contract and the option(s) shall be required regardless of when the option(s) may be exercised, unless an exemption thereto is appropriate in accordance with FAR 15.403-1.

52.217-9P13 EVALUATION OF OPTIONS -- SOURCE SELECTION FOR AN INDEFINITE-DELIVERY, INDEFINITE-QUANTITY CONTRACT (JAN 1992) ALTERNATE I (MAY 1997) DSCP

(a) For award purposes, in addition to an offeror's response to the base ordering period, the Government will evaluate its response to all options, both technical and price. To evaluate price, the Government will add the total price for all options to the total price for the base ordering period. Further, where a contract line or sub line item number in the Supplies or Services and Prices Section specifies a minimum and maximum quantity, the maximum quantity will be used to determine the total price. Evaluation of options will not obligate the Government to exercise the options. For this solicitation, the options are as specified in Clause 52.217-9P12.

(b) Should offerors propose option prices which vary (for example, with quantities actually ordered and the dates when ordered), these offers will be evaluated using the highest option price offered for each item.

52.217-9P16 EFFECTIVE PERIOD OF CONTRACT - INDEFINITE DELIVERY CONTRACT (JAN 1992) DSCP

The effective period of this contract is from June 9, 2002 through June 8, 2003.

52.219-9002 DLA MENTORING BUSINESS AGREEMENTS (MBA) PROGRAM (DEC 1997) DLAD

(a) The offeror is invited to participate in a program whereby small, small disadvantaged, and women-owned small business are afforded the opportunity (through the offeror's provision of developmental assistance in its capacity as prime contractor) to participate in the DLA procurement process. (The offeror may alternatively propose to mentor a Javits-Wagner-O'Day (JWOD) Act-qualified nonprofit agency.) In order to participate, the offeror shall submit a proposal outlining the assistance already rendered or to be provided to the protégé, as well as the kinds of value-added activity the offeror might expect to receive, in return, from the mentored entity. The offeror-mentor may propose to provide the benefit of its managerial expertise, technical capabilities, market knowledge, etc.; the protégé will be expected to provide a specialized service or product, or potentially, admission into its own market. Participation is entirely voluntary.

(b) The Government will evaluate the offeror's proposal for participation in the DLA MBA Program on a comparative basis among all offerors, rather than via establishment of an "acceptable" standard. The factor is an independent element in the overall award decision; the offeror who proposes or demonstrates the most comprehensive plan for tutoring a protégé will receive the highest rating for this evaluation factor during the source selection process. The evaluation will assess the offeror's willingness to assist such entities in receiving better market shares, improving

their processes, and generally contributing to their viability under long-term contracting arrangements.

(c) The proposal submitted by the successful offeror will be incorporated into its contract with DLA. The successful offeror will be expected to incorporate the salient points of the evaluated proposal into a written agreement (the MBA) with a protégé selected by the offeror. The offeror's performance under the proposal will be monitored by the contracting officer and cognizant small business specialists (from the buying activity and/or the Defense Contract Management Command) during the contract period. This performance will be one factor used to determine placement of orders against multiple-award contracts and/or exercise of options in the contract's follow-on years (as applicable). It will also be used as an independent evaluation factor, and as an element of past performance evaluation, in subsequent source selection decisions.

**52.219-9003 DLA MENTORING BUSINESS AGREEMENTS (MBA)
PERFORMANCE (DEC 1997) DLAD**

(a) The contractor's proposed MBA plan shall become part of this contract upon award. The contractor is hereby obligated, as part of its contractual undertaking, to enter into a written, binding mentoring business agreement with a protégé based on and reflective of this plan. Performance under the MBA plan shall be evaluated by the contracting officer, and may become a consideration prior to option exercise for the follow-on years of long-term contracts. MBA plan implementation may also become an independent evaluation factor and/or part of the overall past performance evaluation factor in future source-selection decisions.

(b) The contractor-mentor and its protégé(s) shall meet semi-annually with the DLA contracting officer and the small business specialist(s) from the buying activity and/or the DCMC component to review progress/accomplishments under applicable MBA proposals. The contractor is also required to submit periodic progress reports (no less frequently than annually) to the contracting officer regarding proposal fulfillment. Any MBA with a protégé that has voluntarily been submitted to the Government shall be compared by the contracting officer to the contractor's proposed plan, hereby incorporated into this contract, to ensure that it adequately reflects the mentor's obligations expressed therein.

52.219-16 LIQUIDATED DAMAGES--SUBCONTRACTING PLAN. (JAN 1999)

(a) "Failure to make a good faith effort to comply with the subcontracting plan", as used in this clause, means a willful or intentional failure to perform in accordance with the requirements of the subcontracting plan approved under the clause in this contract entitled "Small Business Subcontracting Plan," or willful or intentional action to frustrate the plan.

(b) Performance shall be measured by applying the percentage goals to the total actual subcontracting dollars or, if a commercial plan is involved, to the pro rata share

of actual subcontracting dollars attributable to Government contracts covered by the commercial plan. If, at contract completion or, in the case of a commercial plan, at the close of the fiscal year for which the plan is applicable, the Contractor has failed to meet its subcontracting goals and the Contracting Officer decides in accordance with paragraph (c) of this clause that the Contractor failed to make a good faith effort to comply with its subcontracting plan, established in accordance with the clause in this contract entitled "Small Business Subcontracting Plan," the Contractor shall pay the Government liquidated damages in an amount stated. The amount of probable damages attributable to the Contractor's failure to comply shall be an amount equal to the actual dollar amount by which the Contractor failed to achieve each subcontract goal.

(c) Before the Contracting Officer makes a final decision that the Contractor has failed to make such good faith effort, the Contracting Officer shall give the Contractor written notice specifying the failure and permitting the Contractor to demonstrate what good faith efforts have been made and to discuss the matter. Failure to respond to the notice may be taken as an admission that no valid explanation exists. If, after consideration of all the pertinent data, the Contracting Officer finds that the Contractor failed to make a good faith effort to comply with the subcontracting plan, the Contracting Officer shall issue a final decision to that effect and require that the Contractor pay the Government liquidated damages as provided in paragraph (b) of this clause.

(d) With respect to commercial plans, the Contracting Officer who approved the plan will perform the functions of the Contracting Officer under this clause on behalf of all agencies with contracts covered by the commercial plan.

(e) The Contractor shall have the right of appeal, under the clause in this contract entitled, Disputes, from any final decision of the Contracting Officer.

(f) Liquidated damages shall be in addition to any other remedies that the Government may have.

52.232-33 - Payment by Electronic Funds Transfer—Central Contractor Registration

(May. 1999)

(a) Method of payment.

(1) All payments by the Government under this contract, shall be made by electronic funds transfer (EFT), except as provided in paragraph (a)(2) of this clause. As used in this clause, the term "EFT" refers to the funds transfer and may also include the payment information transfer.

(2) In the event the Government is unable to release one or more payments by EFT, the Contractor agrees to either--

PUERTO RICO – SOUTHEAST REGION

(i) Accept payment by check or some other mutually agreeable method of payment; or

(ii) Request the Government to extend the payment due date until such time as the Government can make payment by EFT (but see paragraph (d) of this clause).

(b) *Contractor's EFT information.* The Government shall make payment to the Contractor using the EFT information contained in the Central Contractor Registration (CCR) database. In the event that the EFT information changes, the Contractor shall be responsible for providing the updated information to the CCR database.

(c) *Mechanisms for EFT payment.* The Government may make payment by EFT through either the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association, or the Fedwire Transfer System. The rules governing Federal payments through the ACH are contained in 31 CFR part 210.

(d) *Suspension of payment.* If the Contractor's EFT information in the CCR database is incorrect, then the Government need not make payment to the Contractor under this contract until correct EFT information is entered into the CCR database; and any invoice or contract financing request shall be deemed not to be a proper invoice for the purpose of prompt payment under this contract. The prompt payment terms of the contract regarding notice of an improper invoice and delays in accrual of interest penalties apply.

(e) *Contractor EFT arrangements.* If the Contractor has identified multiple payment receiving points (i.e., more than one remittance address and/or EFT information set) in the CCR database, and the Contractor has not notified the Government of the payment receiving point applicable to this contract, the Government shall make payment to the first payment receiving point (EFT information set or remittance address as applicable) listed in the CCR database.

(f) *Liability for uncompleted or erroneous transfers.*

(1) If an uncompleted or erroneous transfer occurs because the Government used the Contractor's EFT information incorrectly, the Government remains responsible for--

(i) Making a correct payment;

(ii) Paying any prompt payment penalty due; and

(iii) Recovering any erroneously directed funds.

(2) If an uncompleted or erroneous transfer occurs because the Contractor's EFT information was incorrect, or was revised within 30 days of Government release of the EFT payment transaction instruction to the Federal Reserve System, and--

(i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously directed funds; or

(ii) If the funds remain under the control of the payment office, the Government shall not make payment, and the provisions of paragraph (d) of this clause shall apply.

(g) *EFT and prompt payment.* A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

(h) *EFT and assignment of claims.* If the Contractor assigns the proceeds of this contract as provided for in the assignment of claims terms of this contract, the Contractor shall require as a condition of any such assignment, that the assignee shall register in the CCR database and shall be paid by EFT in accordance with the terms of this clause. In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph (d) of this clause.

(i) *Liability for change of EFT information by financial agent.* The Government is not liable for errors resulting from changes to EFT information made by the Contractor's financial agent.

(j) *Payment information.* The payment or disbursing office shall forward to the Contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. The Government may request the Contractor to designate a desired format and method(s) for delivery of payment information from a list of formats and methods the payment office is capable of executing. However, the Government does not guarantee that any particular format or method of delivery is available at any particular payment office and retains the latitude to use the format and delivery method most convenient to the Government. If the Government makes payment by check in accordance with paragraph (a) of this clause, the Government shall mail the payment information to the remittance address contained in the CCR database.

**52.246-9P29 ADMINISTRATIVE COST TO THE GOVERNMENT IN
PROCESSING CONTRACT MODIFICATIONS (JAN 1992) DPSC**

Where contract modifications are issued solely for the benefit of the contractor, e.g. acceptance of nonconforming supplies or change in place of performance or delivery, the sum of \$100 (the Government's administrative cost to process the modification) shall be obtained from the contractor in addition to any other monetary consideration.

52.246-9P31 SANITARY CONDITIONS (JAN 1998) DSCP**(a) Food Establishments.**

(1) Establishments furnishing food items under DSCP contracts are subject to approval by the Military Medical Service or another agency acceptable to the Military Medical Service. The Government does not intend to make any award for, nor accept, any subsistence products manufactured or processed in a plant which is operating under such unsanitary conditions as may lead to product contamination or constitute a health hazard, or which has not been listed in an appropriate Government directory as a sanitarily approved establishment when required. Accordingly, the supplier agrees that, except as indicated in paragraphs (2) and (3) below, products furnished as a result of this contract will originate only in establishments listed in the "Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement," published by the US Army Veterinary Command. Suppliers also agree to inform the contracting officer immediately upon notification that a manufacturing plant is no longer sanitarily approved and/or deleted from another agency's listing, as indicated in paragraph (2) below. The contracting officer will also be notified when sanitary approval is regained and listing is reinstated.

(2) Establishments furnishing the products listed below and appearing in the publications indicated need not be listed in the "Directory of Sanitarily Approved Food Establishments."

(i) Meat and meat products and poultry and poultry products from establishments which are currently listed in the "Meat and Poultry Inspection Directory," published by the Meat and Poultry Inspection Program, AMS, USDA. The item, to be acceptable; shall, on delivery bear on the product, its wrappers or shipping container, as applicable, the official inspection legend or label of the Agency.

(ii) Meat and meat products for direct delivery to military installations within the same state may be supplied when the items are processed under state inspection in establishments certified by the USDA as being equal to Federal meat inspection requirements.

(iii) Poultry, poultry products, and shell eggs from establishments listed in the "List of Plants Operating under USDA Poultry and Egg Grading Programs," published by Poultry Programs, Grading Branch, AMS, USDA. Egg products (liquid, dehydrated) from establishments listed in the "Meat and Poultry Directory" published by the Food Safety Inspection Service. All products, to be acceptable, shall, on

delivery, bear on the product, its wrappers or shipping container, as applicable, the official inspection legend or label of the Agency.

(iv) Fish and fishery products from establishments listed in the "Approved List-Sanitary Inspected Fish Establishments," published by the U.S. Department of Commerce, National Oceanic and Atmospheric Administration, National Marine Fisheries Service.

(v) Milk and milk products from plants having a pasteurization plant compliance rating of 90 or more, as certified by a State milk sanitation rating officer and listed in "Sanitation Compliance and Enforcement Ratings of Interstate Milk Shippers." published by the U.S. Public Health Service. These may serve as sources of pasteurized milk and milk products as defined in paragraph N, Section I, Part II of the "Grade 'A' Pasteurized Milk Ordinance, 1978 Recommendations of the US Public Health Service," Public Health Service Publication No. 229.

(vi) "Dairy Plants Surveyed and Approved for USDA Grading Service," published by Dairy Division, Grading Branch, AMS, USDA.

(vii) Oysters, clams, and mussels from plants listed in the "Interstate Certified Shellfish Shippers Lists," published by the US Public Health Service.

(3) Establishments furnishing the following products are exempt from appearing in the "Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement," or other publication, but will remain subject to inspection and approval by the Military Medical Service or by another inspection agency acceptable to the Military Medical Services:

(i) Fruits, vegetables and juices thereof

(ii) Special dietary foods and food specialty preparations (except animal products, unless such animal products are produced in establishments covered by paragraphs 2 (i), 2 (iii), or 2(iv) above).

(iii) Food oils and fats (except animal products, unless such animal products are produced in establishments covered by paragraph 2 (i), 2 (iii), or 2(iv) above).

(iv) Foreign establishments whose prepackaged finished items are imported by distributors or brokers into the United States as brand name items and then sold to Armed Forces procurement agencies for commissary store resale.

(4) Subsistence items, other than those exempt from listing in the US Army Veterinary Command "Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement," bearing labels reading "Distributed by," etc., are not acceptable unless the source of manufacturing/processing is indicated on the label or on accompanying shipment documentation.

(5) When the Military Medical Service or other inspection agency acceptable to the Military Medical Service determines that the sanitary conditions of the establishment or its products have or may lead to product contamination, the contracting officer will suspend the work until such conditions are remedied to the satisfaction of the appropriate inspection agency. Suspension of the work shall not extend the life of the contract, nor shall it be considered sufficient cause for the contractor to request an extension of any delivery date. In the event the contractor

PUERTO RICO – SOUTHEAST REGION

fails to correct such objectionable conditions within the time specified by the contracting officer, the Government shall have the right to terminate the contract in accordance with the "Default" clause of the contract.

(b) Delivery Conveyances

The supplies delivered under this contract shall be transported in delivery conveyances maintained to prevent contamination of the supplies, and if applicable, equipped to maintain any prescribed temperature. "(Semi perishable supplies shall be delivered in a non-refrigerated conveyance)". The delivery conveyances shall be subject to inspection by the Government at all reasonable times and places. When the sanitary conditions of the delivery conveyance have led or may lead to product contamination, or they constitute a health hazard, or the delivery conveyance is not equipped to maintain prescribed temperatures, supplies tendered for acceptance may be rejected without further inspection.

52.246-9P32 FEDERAL FOOD, DRUG AND COSMETIC ACT-WHOLESOME MEAT ACT (JAN 1992) DSCP

(a) The contractor warrants that the supplies delivered under this contract comply with the Federal Food, Drug and Cosmetic Act and the Wholesome Meat Act, and regulations thereunder. This warranty will apply regardless of whether or not the supplies have been:

(1) Shipped in interstate commerce,
(2) Seized under either act or inspected by the Food and Drug Administration or Department of Agriculture.

(3) Inspected, accepted, paid for or consumed, or any or all of these, provided however, that the supplies are not required to comply with requirements of said acts and regulations thereunder when a specific paragraph of the applicable specification directs otherwise and the supplies are being contracted for military rations, not for resale.

(b) The government shall have six months from the date of delivery of the supplies to the government within which to discover a breach of this warranty. Notwithstanding the time at which such breach is discovered, the right is reserved to give notice of breach of this warranty at any time within such applicable period or within 30 days after expiration of such period, and any such notice shall preserve the rights and remedies provided herein.

(c) Within a reasonable time after notice to the contractor of breach of this warranty, the government may, at its election:

(1) Retain all or part of the supplies and recover from the contractor, or deduct from the contract price, a sum determined to be equitable under the circumstances;

(2) Return or offer to return all or part of the supplies to the contractor in place and recover the contract price and transportation, handling, inspection and storage costs expended therefore; provided, that if the supplies are seized under either act, such seizure, at government option, shall be deemed a return of supplies within the meaning of this clause and thereby allow the government to pursue the remedy provided herein. Failure to agree to any deduction or recovery provided herein shall be a dispute of a question of fact within the meaning of the clause of this contract entitled "disputes".

(d) The rights and remedies provided by this clause shall not be exclusive and are in addition to other rights and remedies provided by law or under this contract, nor

shall pursuit of a remedy herein or by law either jointly, severally or alternatively, whether simultaneously or at different times, constitute an election of remedies.

52.247-34 F.O.B. DESTINATION. (NOV 1991)

(a) The term "f.o.b. destination," as used in this clause, means--

(1) Free of expense to the Government, on board the carrier's conveyance, at a specified delivery point where the consignee's facility (plant, warehouse, store, lot, or other location to which shipment can be made) is located; and

(2) Supplies shall be delivered to the destination consignee's wharf (if destination is a port city and supplies are for export), warehouse unloading platform, or receiving dock, at the expense of the Contractor. The Government shall not be liable for any delivery, storage, demurrage, accessorial, or other charges involved before the actual delivery (or "constructive placement" as defined in carrier tariffs) of the supplies to the destination, unless such charges are caused by an act or order of the Government acting in its contractual capacity. If rail carrier is used, supplies shall be delivered to the specified unloading platform of the consignee. If motor carrier (including "piggyback") is used, supplies shall be delivered to truck tailgate at the unloading platform of the consignee, except when the supplies delivered meet the requirements of Item 568 of the National Motor Freight Classification for "heavy or bulky freight." When supplies meeting the requirements of the referenced Item 568 are delivered, unloading (including movement to the tailgate) shall be performed by the consignee, with assistance from the truck driver, if requested. If the contractor uses rail carrier or freight forwarded for less than carload shipments, the contractor shall ensure that the carrier will furnish tailgate delivery, when required, if transfer to truck is required to complete delivery to consignee.

(b) The Contractor shall--

- (ii) In the absence of specifications, prepare the shipment in conformance with carrier requirements;
- (2) Prepare and distribute commercial bills of lading;

- (6) Pay and bear all charges to the specified point of delivery.

INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS**I. GENERAL INFORMATION**

A. The Government is committed to utilizing the Trade-off Process as a means of selecting the most qualified vendor to support the needs of the customers listed in this solicitation while assessing acquisition procedures, quality assurance practices, and reasonable pricing, as well as other factors.

1. Two (2) different techniques will be utilized when submitting your technical proposal, an Oral Presentation and a written proposal. Except where otherwise noted, the Technical Proposal shall be orally presented in accordance with the instructions outlined in these "Instructions, Conditions, and Notices to Offerors." The Business Proposal must be submitted in writing. The Technical Proposal information required to be submitted in writing must be prepared separately in the quantities shown below and shall not be combined with the Business Proposal.

<u>WRITTEN VOLUME</u>	<u>TITLE</u>	<u>NO. OF COPIES</u>
I	Technical (written)	6
	Formal Oral Presentation	
	Briefing Charts **	6
II	Business	2

**To include any presentation materials to be used (i.e. slides, videos, handouts, etc.). The names and titles of the presenters and copies of handouts must be included in the written proposals, either on your briefing charts or as an attachment to the written part of your technical proposal.

2. Evaluations for each volume of the proposal will be performed exclusive of one another. Therefore, the Technical Proposal shall contain no reference to cost or pricing data. Conversely, the Business Proposal should not address information requested under an element listed as a technical factor. Cost and Pricing information shall only be contained in Volume II, Business Proposal. Each volume shall be bound separately and labeled accordingly.

B. Proposals will be evaluated for both technical excellence and price reasonableness in accordance with the evaluation criteria outlined in the "Evaluation Factors for Award" section of this solicitation. Technical factors listed in this solicitation are considered to be more important than price (business) factors. However, as proposals become more equal in their technical merit, the evaluated price becomes significantly more important. The offeror must clearly demonstrate its capability to support the customers' requirements in the most efficient, cost-effective

manner. Proposals will be evaluated in accordance with the factors listed in the solicitation. The rating methodology will be adjectival, i.e., Excellent, Good, Fair, or Poor. A Neutral rating for socio-economic consideration within the past performance factor may also be used.

C. In order to receive full consideration, firms are encouraged to ensure that the information provided in the Technical Proposal is factual and complete. To ensure that an accurate evaluation of the proposal is made, **please address the factors in the order in which they appear in the solicitation**. Failure to do so may result in the Technical Evaluation Panel overlooking important information.

D. The Technical Proposal shall be used for evaluation purposes only and is not considered to be part of the contract. The Government reserves the right to incorporate into the resultant contract(s) those elements of an offeror's technical proposal that exceed solicitation requirements. The Business Proposal "Market Basket of Items" delivered prices are essentially for evaluation purposes, however, the market basket items will become part of the catalog. These prices should not dramatically change for orders placed early in the contract unless documented market conditions arise.

E. Offerors may provide additional technical information that will enhance the proposal; however, overly elaborate proposals that contain information not pertinent to this acquisition are not desired. **Failure to provide the information requested may render the proposal unacceptable and may lead to a rejection of the offer.**

F. The Government reserves the right to verify any information presented in the technical and business proposals. Site visits to assess the accuracy of the information provided in an offeror's proposal may be conducted during the evaluation process.

II. ORAL PRESENTATIONS AND SITE VISITS

A. What is an "Oral Presentation"?

An oral presentation is a technique that provides offerors with an opportunity to present information through verbal means as a substitute for information traditionally provided in written form under the cover of the offeror's proposal. The oral presentation is not a mere restatement or replication of the written proposal information but is in lieu of it. The purpose of using the Oral Presentation technique is to eliminate, or greatly reduce, the need for written material, where information can be conveyed in a more meaningful and efficient way through verbal means. One of the benefits of Oral Presentations is that it permits the evaluators to receive information demonstrating the offeror's understanding of the work or describing how the work will be performed, directly from the key members of the offeror's team that will actually

perform the work. The Oral Presentation should demonstrate the offeror's understanding of the work to be performed and describe how the work will be performed.

B. What is a Site Visit?

The purpose of a site visit is to view the offeror's facility(ies) and business operations to verify what is presented in the Technical Proposal (Oral Presentation and Written Technical Portion).

C. Instructions for Oral Presentations/Site Visits

1. A portion of the Technical Proposal will be submitted to the Technical Evaluation Panel (TEP) via an Oral Presentation. The Oral Presentations will be conducted at the Defense Supply Center Philadelphia (DSCP). The date of the Oral Presentation will be confirmed in writing within seven (7) working days after solicitation closing. It is anticipated that the first Oral Presentations will be scheduled to take place approximately fourteen (14) to twenty-one (21) working days after solicitation closing.

2. The Oral Presentation is to be made only by key members of the offeror's company, including any partner(s) who will be directly involved in the successful performance of the resultant contract. **The names and titles of the presenters must be included in the written proposal.** If the offeror fails to indicate in its offer the names of those people who will be presenting at the Oral Presentation, then the presenter will be restricted to the individual who signed the proposal.

3. All Oral Presentations will be recorded on a VHS-format videotape. A copy of the videotape will be made available to the offeror, if requested. It should be noted that the awardee's oral presentation videotape may be used for future training sessions. Offerors will be allotted no more than three (3) hours to present information, as specified below, on the following technical factors:

- a. Corporate Experience/Past Performance
- b. Distribution System/Capability
- c. Quality Assurance
- d. Socioeconomic Considerations
- e. DLA Mentoring Business Agreement

4. It should also be noted that the DSCP Technical Evaluation Panel may audiotape the presentation for its immediate reference, in addition to the video taping by the offeror.

PUERTO RICO – SOUTHEAST REGION

5. Offerors will be allotted no more than three (3) hours to present information. It should be noted that there will only be one (1) Oral Presentation per submission, i.e. if there is any type of joint venture or partnership only one (1) Oral Presentation at the three (3) hour limit will be permitted.

6. The Technical Evaluation Panel will NOT ask any questions during the presentation, nor will any questions from the presenters be allowed. There will be a break of approximately 20-minutes at the end of the first 1-½ hours, then a 30-60 minute break at the end of the presentation. The Question and Answer period will immediately follow the Oral Presentation; this portion will also require videotaping. During the Question and Answer period, the Technical Evaluation Panel will ask for any clarifications to the offeror's presentation. The offeror will not be permitted to ask questions of the panel other than to elicit a better understanding of the Technical Evaluation Panel's question. The Oral Presentation, or the Question and Answer session, will not constitute discussions as defined in FAR 15.306(d). DSCP reserves the right to award without discussions.

NOTE: The Technical Evaluation Panel may take pictures during the site visit. The offeror will refrain from the use of picture taking while the site visit is being conducted.

7. The order in which Oral Presentations occur will be randomly selected, by lottery. Within seven (7) working days after the closing of the solicitation, offerors will be notified of the date when presentations are to be conducted. Once the date for the Oral Presentation is set, requests for changes will not be entertained. Offerors are reminded to specify in writing what dates would not be allowable for an oral presentation. The Oral Presentation dates will begin fourteen (14) to twenty-one (21) days after the solicitation closing. It is anticipated that this process will take approximately two (2) to three (3) weeks. Oral Presentations may not be scheduled for consecutive days.

8. The briefing charts to be used during the Oral Presentation will become part of the official record and must be submitted by the date and time specified for the receipt of proposals. Briefing charts received after this date and time are subject to the provisions of FAR 52.212-1(f). If Briefing Charts are not submitted by the date and time specified for closing, then the firm waives its right to use any charts during its Oral Presentation. **NO HANDOUTS WILL BE ACCEPTED DURING THE ORAL PRESENTATION.** The briefing charts may not be altered between the time of the closing and the Oral Presentation. Any changes to the briefing charts may result in a score of "Poor" for the factor to which the chart applied.

9. Offerors are reminded that they should not develop overly elaborate Oral Presentations or presentation material, including briefing charts.

Both large and small business offerors must indicate what portion of the proposal will be subcontracted to Small Business (SB), Small Disadvantaged Business (SDB), Women-Owned Small Business (WOSB), and HUBZone Small Business (HZSB) concerns in terms of percentages and total dollars. The percentage shall be formulated using the total to be subcontracted as the divisor. The offeror must describe the proposed SB, SDB, WOSB and HZSB concerns' participation in the performance of this contract at the contractor, subcontractor, and product supplier levels. These figures shall pertain to the proposed acquisition only. These figures shall represent what percentage/dollar value of products to be supplied under this contract by a SB, SDB, WOSB, HZSB manufacturer or distributor. A goal for the Prime Vendor may be to obtain at least 30% of the supplies for the proposed contract from SB firms, 5% from WOSB, and 5% from SDB firms.

A. Socioeconomic Definitions

1. "Small Business Concern" - a firm, including its affiliates, that is organized for profit, independently owned and operated, not dominant in the field of operation in which it is competing, and can further qualify under the criteria concerning the number of employees, average annual receipts and other criteria as described by the Small Business Administration.

2. "HUBZone Small Business Concern" – a concern located in an "historically underutilized business zone"; is owned and controlled by one or more U.S. citizens; and a least 35% of its employees reside in the HUBZone. A HUBZone is an historically underutilized business zone, which is an area located in within one or more qualified census tracts, qualified non-metropolitan counties, or lands within the external boundaries of an Indian Reservation.

3. "Small Disadvantaged Business Concern" - a firm (1) that is at least 51% owned by one or more socially and economically disadvantaged individuals; or, in the case of any publicly owned business, at least 51% of the stock is owned by one or

more socially and economically disadvantaged individuals and (2) whose management and daily operations are controlled by one or more such individuals. The term “socially disadvantaged” means individuals who have been subjected to racial or ethnic prejudice or cultural bias because of their identity as a member of groups without regard to their individual qualities. The following individuals are presumed to be socially disadvantaged: Black Americans, Hispanic Americans, Native Americans [Indians], Asian-Pacific Americans, and Subcontinent Asian Americans. The term “economically disadvantaged” means socially disadvantaged individuals whose ability to compete is impaired due to diminished capital and credit opportunities. Generally, a socially disadvantaged individual whose personal net worth does not exceed \$750,000 (\$250,000 for SBA Section 8(a) Program certification) excluding ownership interest in the company and equity in a primary residence, is considered to be economically disadvantaged.

4. “Woman-Owned Small Business Concern” - a small business concern that is at least 51% owned by one or more women; or, in the case of any publicly owned business, at least 51% of the stock is owned by one or more women and whose management and daily business operations are controlled by one or more women.

5. “Subcontract” - any agreement (other than one involving an employee-employer relationship) entered into by a Government prime contractor or subcontractor calling for supplies and/or services (direct costs only) required for contract performance, contract modification or subcontracts.

*B. *Socioeconomic Considerations*

Under socioeconomic considerations [and subsequent management reports], offerors are to submit figures based on direct subcontracts for items that would be supplied under contract. No indirect costs for equipment or services are to be included.

1. The offeror shall describe the proposed extent of SB, WOSB, SDB and HUBZone SB participation in the performance of the contract at the contractor, subcontractor and product supplier level. In addition, firms shall also state whether they are a large or small food service distributor. A small firm is defined as having less than an average of 500 employees and must not be a subsidiary or division of a large company/corporation.

*2. The following is the preferred format for the submission of socioeconomic data.

PUERTO RICO – SOUTHEAST REGION

	<u>Dollar</u>	<u>Percent</u>
1. Total Contract Price	_____	_____
2. Total to be subcontracted:		
a. To Large business	_____	_____
b. To Small business	_____	_____
1. HUBZone SB	_____	_____
2. To SDB	_____	_____
3. To WOSB	_____	_____
4. To Other SB's	_____	_____

NOTES:

- ξ When calculating figures for socioeconomic goals, the business size of the manufacturer is to be considered, not the business size of the broker/agent that may have supplied the product to the distributor.
- ξ If the offeror is a Small, Small Disadvantaged, or Women-Owned Small or HUBZone Small Business, the offeror may NOT include its “cost of doing business” as part of the subcontracting goals proposed for this acquisition.
- ξ Offerors that are Small Businesses will receive additional credit under this factor for evaluation purposes.
- ξ Performance on prior contracts in subcontracting with and assisting Small, Small Disadvantaged, Women-Owned Small and HUBZone Small Businesses will be part of past performance evaluation.

3. Organizational Efforts

a. The offeror shall describe the efforts it will make to ensure that SB, SDB, WOSB, and HZSB concerns will have an equitable opportunity to compete for subcontracts or as product suppliers on this acquisition.

b. The offeror shall describe its willingness and any plans it has to develop additional opportunities for SB, SDB, WOSB, and HZSB concerns. The offeror must furthermore identify the employee(s) responsible for ensuring that an

equitable opportunity is afforded to the SB, SDB, WOSB, and HZSB firms to compete for contracts or supplier selection.

c. The offeror must indicate what percentage of its available subcontracting (or supplier utilization) dollars is allocated to small business concerns. Included in this percentage range is an estimated total subcontracting allocation to SB, SDB, WOSB, and HZSB concerns.

d. The offeror shall be required to cooperate in studies or surveys in order to allow the Government to determine the extent of subcontracting opportunities identified for this acquisition.

e. The offeror is to demonstrate a knowledge of, and more preferably a working relationship with local, state, and/or federal organizations whose mission it is to promote Small Business, Small Disadvantage Business, Women Owned Small Disadvantaged Business and HUB Zone Small Businesses.

NOTE: Large business offerors are required to submit the Small, HUBZone Small, Small Disadvantaged Business, and Women-Owned Small Business Subcontracting Plan information as required by Clause 52.219-9 "Small Business Subcontracting Plan" in addition to the information that is a requirement of this section of the proposal. The subcontracting plan required by the FAR clause can incorporate all costs, direct and indirect, associated with this proposal. If an individual contract subcontracting plan is submitted, the plan must contain separate Small, HUBZone Small, Small Disadvantaged, and Women-Owned Small Business subcontracting percentages and dollar levels for the base year as well as each option year.

***a. Participants**

b. Agreement Type

1) Describe the type of agreement executed by the contract holder and the Small Business, Small Disadvantaged Business, Women-Owned Small Business or JWOD entity. The agreement should state the benefits of the plan for both parties. The Contracting Officer will review the plan to ensure that the agreement will not jeopardize future contract performance. The agreements should clearly define the roles and responsibilities of each party. Plans that identify new business ventures rather than expansion of existing agreements are preferred.

2) DLA MBA Agreements shall specifically identify the areas of developmental assistance (i.e. management/technical) that will be provided. The offeror should provide a discussion of the areas chosen for development/enhancement. Describe the scope of the plan, i.e. whether the plan will be specifically related to the requirements contained in the solicitation or will the plan cover other government and commercial customers.

b. An improvement in the participation in DoD, other federal agencies and commercial contracting opportunities.

3) Mentors will be required to submit periodic progress reports on their agreements.

*4) Copies of signed MBA's that are currently in place (and will apply to proposed contract) are required to be submitted.

THE GOVERNMENT RESERVES THE RIGHT TO VERIFY ALL ASPECTS OF AN OFFEROR'S TECHNICAL AND BUSINESS PROPOSALS.

SUBMISSION REQUIREMENTS**Business Proposal - PART II****THIS PORTION MUST BE SUBMITTED IN WRITING****I. PRICING**

A. An evaluation will be made against items selected from the highest usage items and general and non-food supplies provided by the customers supported under this solicitation, as well as items listed under the Basic Daily Food Allowance (BDFa) listing. Estimated annual quantities for the items selected are indicated next to each item and are for information and evaluation purposes only. The items will be weighted against the estimated yearly requirements of the ordering activities and evaluated for the lowest overall aggregate cost to the Government. A separate evaluation will be made of the offeror's distribution pricing, using the same market basket of items.

B. Offerors are to submit the most current unit prices for each of these items. This unit price must be in a format that shows the delivered price and the distribution price as separate entries, then totaled. For example, if the delivered price is \$2.00 and the distribution price is \$0.50, pricing should be formulated as follows:

$$\text{\$ 2.00} + \text{\$.50} = \text{\$ 2.50}$$

- ξ Do Not Submit only the Unit Price; the two (2) elements must be shown separately as two separate evaluations that are being performed.
- ξ Do not deduct any NAPA or Food Show allowances from the delivered price on your business proposal.
- ξ Prices for Market Basket Items are to be submitted according to the Government's Unit of Issue (THERE ARE NO EXCEPTIONS). The Market Basket will ultimately become part of the vendor catalog. The prices submitted at the time of final revisions will be incorporated into the vendor's catalog.

C. Prices must not extend more than two [2] places to the right of the decimal point. Standard rounding methods should be observed. For example, a delivered price of \$4.578 plus a distribution price of \$.232 should be rounded to \$4.58 plus \$.23.

D. If an offeror carries a variety of brands for the same item, the price submitted shall be for the lowest price, technically acceptable, item that meets the Government's minimum requirements. However, Brand Name items must be priced according to the exact brand that is listed in the Market Basket.

PUERTO RICO – SOUTHEAST REGION

E. ALL offered delivered prices must be substantiated with a copy of the manufacturer's invoice for each item in the Schedule of Items. The preferred documentation is the manufacturer's invoice. If you do not have a manufacturer's invoice, a written quote from the manufacturer will be accepted. The quote must be presented in the following manner:

1. Detailed on manufacturer/company letterhead,
2. Date of price quote;
3. Time period price quote is effective;
4. Quantity covered by price quote;
5. Manufacturer part number; and
6. Manufacturer's point of contact: including name, title, address, and phone number.

F. The invoices should reflect the prices effective within two (2) weeks prior to closing. If invoices are not available for that week, the most recent invoices shall be submitted. The Government has a strong preference for invoices over market quotes and prices within two (2) weeks from closing over earlier dates. For evaluation purposes, the offeror is required to submit pricing for Market Basket Items that will meet the government's minimum requirement, except for Brand Name items, which must be priced according to the exact brand name product.

G. Offerors are required to submit this portion of the Business Proposal on a spreadsheet containing the following information:

1. **Item** - Item Number and Description as listed
2. **Estimated Quantity** - Quantity given
3. **Unit of Issue** – Self-explanatory. Note: Unit of Issue must be same as Government's listed in the Market Basket of Items.
4. **Distribution Price Category** - Description of Distribution Price Category, e.g. "Frozen Meats". If you also identify your category of items by number, list this number also.
5. **Delivered Price (DEP)** - the price you actually paid for the item, as substantiated by manufacturer invoice.
6. **Distribution Price (DIP)** - your distribution price
7. **Unit Price** - Delivered Price + Distribution Price
8. **Total** - Estimated Quantity multiplied by Unit Price
9. **DIP/DEP** - Distribution Price divided by the Delivered Price
10. **DP AGG** - Quantity multiplied by the distribution price.

All prices submitted must not be more than two [2] places to the right of the decimal point ONLY. If IN ANY COLUMN prices appear having more than two [2] decimal places, the government will automatically round your prices up or down prices using standard rounding procedures.

H. When preparing the spreadsheet, totals must appear at the bottom of the "TOTAL" column (#7) and the "DP AGG" column (#9). Firms are strongly encouraged to use Microsoft Excel to prepare spreadsheets and submit a 3½" disk with the complete spreadsheet on it. Remember to include the offeror's name of the top of the spreadsheet.

I. Each firm must submit a hard copy of their spreadsheet, for the base year and each option year, as well as a copy of the spreadsheet(s) on a disk.

J. Option year prices must be submitted in dollars and cents for each item for each option period.

K. For evaluation purposes of the market basket of items, distribution prices shall correspond to the unit of issue for each product, e.g. if the offered product is issued on a "per pound" basis, the distribution price shall be "per pound". For pricing analysis purposes, the Distribution Price may be listed to the extent of two (2) places to the right of the decimal point.

L. The offeror must also submit option year prices, expressed as the delivered price plus the distribution fee. All components of the option year unit price must be rounded to two (2) places beyond the decimal point. If an offeror does not submit option year prices, the offeror's proposal may be rejected. Option year price increases or decreases are to be expressed in dollars and cents or a percentage increase or decrease from the base/previous option period. The firm may also elect to offer no change in the distribution prices over the life of the contract.

NOTE: PLEASE USE AN ANTI-VIRUS UTILITY TO ENSURE THAT YOUR DISK IS VIRUS FREE BEFORE SUBMITTING.

II. DISTRIBUTION PRICES

A. Firms shall offer a distribution price for each category of items. The distribution price must be offered as a dollar amount. Distribution prices offered as a percentage of the delivered price are not acceptable. The distribution price shall represent the amount to be added to the actual invoice price paid to the manufacturer or supplier by the prime vendor for each food and beverage products.

B. Offerors are strongly urged to use the Government's Category Listing contained in the section entitled "Supplies/Services and Prices" when submitting their Distribution Prices. However, offerors may submit their own food and non-food category listing on which distribution prices are based, subject to the restriction of a fifty [50] category limit.

C. For the Distribution Price Category Listing, prices are to be offered in the same manner in which you sell the product. For example, if you sell a product by the "case", then the distribution price will be by the "case". Whereas, if you sell the product by the "pound" or by the "each", the distribution price would be listed accordingly. The distribution prices must be stated in a dollar amount not more than two places to the right of the decimal point.

4. The distribution prices shall remain constant for the complete base term of the contract; however, may remain the same, increase, or decrease for each option year.

III. PRODUCT LISTING

The offeror shall submit two (2) copies of its complete product listing for all food, beverage, and related non-food items as part of the Business Proposal.

IV. PRIME VENDOR SCHEDULE OF ITEMS

Please note that all items procured under the resultant contract are subject to all contractual clauses and regulations, including, but not limited to, the Berry Amendment, procured from a Sanitarily Approved Source, etc.

NOTE: IT IS NOT NECESSARY TO ANNOTATE PRICING INFORMATION ON THE FOLLOWING SCHEDULE OF ITEMS. THIS LISTING IS FOR INFORMATIONAL PURPOSES (PROVIDES NSN, UNIT OF ISSUE, DESCRIPTION, AND QUANTITY). PRICING SHOULD BE CONTAINED ONLY IN THE SPREADSHEETS.

EVALUATION FACTORS FOR AWARD**TECHNICAL PROPOSAL EVALUATION**

The following evaluation factors are listed in descending order of importance. Each factor will state the importance of its subfactor. The Government will make a risk assessment based on information contained in the proposal and other information, which has or may derive from sources other than the proposal. This risk assessment will be evaluated in the rating for any factors and/or subfactors that place the Government at risk.

I. CORPORATE EXPERIENCE/PAST PERFORMANCE

The subfactors for Corporate Experience/Past Performance are of equal weight.

A. Corporate Experience

1. The Government will perform an integrated assessment of the offeror's corporate experience and past performance. This assessment will also be performed for any partner(s) or joint venture(s) that will perform in support of the proposed contract. The Government will evaluate the offeror's experience in fulfilling requirements of similar dollars and volume for other customers in a Prime Vendor/regular dealer capacity and other Government contracts, if any. This assessment will also be performed for any partner that will perform in support of the proposed contract. This evaluation will be based on the offeror's proposal, as well as any in-house Government records, if applicable.

2. The offeror's identification of key personnel, and its individual experience will be examined in order to determine the anticipated success of the firm in providing service to its customers. This information should be addressed during the Oral Presentation.

B. Past Performance

When evaluating Past Performance, the offeror's written proposal, Government in-house records (if applicable), and the information provided by the points of contact or references designated by the offeror will be taken into account. Government in-house records will be considered more significant than information provided by other references.

1. The Government will evaluate the offeror's record of performance with both commercial and government contracts. The Government will determine whether the firm has a successful history of conforming to contractual requirements or business

agreements, a commitment to customer satisfaction, timely delivery of quality products, providing consistently high fill rates, and service at fair and reasonable prices. If an offeror has performed on government contracts, offerors will also be evaluated on socioeconomic issues of past and current contracts. Offerors that do not have records of past performance on socioeconomic issues will receive a "neutral" rating. This evaluation will also be performed for any partner involved in the proposed contract. Government in-house records will also be used for this evaluation, if applicable, and will be considered more significant than information provided by other references.

2. The Government will evaluate the prime vendor's, or its partner's, experience on contracts similar in size and complexity to this solicitation. Firms that demonstrate significant experience in these areas will be rated more favorably than those firms that do not.

3. The government will evaluate the offeror's customer service program currently in place for its best customers.

4. Awards or certifications received by offerors that indicate a firm possesses a high-quality process for performing the work required will be evaluated. These awards or certifications must be significant in the foodservice industry.

5. Offerors are encouraged to address unfavorable reports/problems of past performance. Your response, or lack thereof, will be taken into consideration.

II. DISTRIBUTION SYSTEM/CAPABILITY

The sub-factors for Distribution System/Capability are of equal weight.

A. Product Availability

1. The number of items an offeror (and any partner(s)) currently carries in its inventory that meets the item descriptions, or commercial equivalent, of the items in the NSN and LSN catalogs, the current Prime Vendor catalog, and Class 1 items listed in the solicitation will be evaluated. The Government will also evaluate the firms' ability to source those items that are not carried in stock. The offeror's turnover ratio will be examined.

2. The firm's proposed fill-rate, without substitutions, and how it intends to satisfy this goal will be evaluated.

3. The offeror's product accountability system will be assessed in order to determine whether the firm is capable of supporting the requirements of the customers.

4. The Government will determine if the firm has the capability to support its customers in a timely manner by evaluating its hours of operation and the proposed method of delivery to each customer/individual dining facility.

5. The offeror's policy regarding minimum order quantities to add new products to inventory as well as the offeror's time frame in which new products will be added will be assessed.

6. The offeror's policy on breaking cases, along with the number and type of items that can be split will be evaluated.

7. The offeror's procedures/plans for ensuring compliance with the Berry Amendment will be evaluated.

B. Distribution Resources

The firm's available capacity and resources will be evaluated as to how the requirement of the solicitation will be supported. Included, but not limited to, are warehouse space, delivery vehicles and equipment, and other resources.

C. Ordering System

1. The Government will evaluate the offeror's ability to interface with STORES and transmit the transaction sets listed in the solicitation. A firm's EDI capability or plans to become EDI capable will be evaluated. The offeror may be required to transmit an 810, 832 and 997 in order to demonstrate its EDI capability.

2. The firm must be able to produce all required management reports as outlined in the section entitled "Special Contract Requirements". The ability to produce additional management reports that would benefit the Government, other than those listed as a requirement of the solicitation, will be evaluated. A firm's capability to submit management reports electronically will also be evaluated.

3. The firm's ability to support the needs of the customers in the event the STORES system is not operational will be assessed. Highest consideration will be given to electronic "user friendly" ordering systems that have the capability to produce printed confirmation reports and to update prices.

4. The government will assess the capability of the offeror to receive orders and other information via the Internet.

D. Customer Service Approach

1. The routine customer support services offered by the firm will be assessed to determine its commitment to customer satisfaction and business-like concerns for its customers.

2. Procedures for handling Not-In-Stock's (NIS's), manufacturer's backorders, substitutions, emergency orders, cancellations and add-ons will be evaluated.

3. The services offered to assist customers in their menu planning and services that assist customers in becoming aware of new products will be evaluated.

4. The services offered to assist customers in becoming more cost effective will be evaluated.

5. The offeror's plan to ensure that customers receive accurate, timely deliveries will be evaluated.

E. Location

The Government will assess the capability of the offeror to support customers in a timely manner, taking into consideration the offeror's location(s) in relation to the customers' locations. This includes response time to both regular deliveries and emergency deliveries.

F. Surge/Mobilization

1. The Government will evaluate the offeror's ability to support "surge" requirements. The capability to swiftly react to this situation will be assessed.

2. The offeror's ability to respond to increased consumption requirements for an extended period of time will be evaluated. Firms must demonstrate the ability to maintain a high level of performance for a span of time, usually with less than thirty (30) days notice.

3. The firm's Readiness Plan will be assessed for realism and completeness.

G. Rebate Policy/Discounts/Allowances

1. The Government will judge the offeror's policies for pursuing, managing and collecting rebates, discounts and allowances.

2. The offeror must demonstrate an aggressive policy towards returning the moneys realized as a result of these savings to the Government.

III. QUALITY ASSURANCE

The sub-factors for Quality Assurance factor are in descending order of importance.

A. Supplier Selection Program

1. The Government will evaluate the offeror's supplier selection program. This evaluation will be conducted to determine the effectiveness of the program to provide a continued supply of quality products with minimal variation.

2. The offeror's methods to ensure that standardized product quality will be maintained when products are received from various suppliers will be evaluated.

B. Quality Control and Quality Assurance Procedures

1. The Government will evaluate the offeror's QC and QA procedures, including its inventory rotation methods, identification and correction of discrepancies in inventory management and order preparation, and inventory control methods to ensure that quality products are acquired and supplied, and that these products comply with the Berry Amendment.

2. Procedures to maintain proper temperature controls in the storage, loading and receiving areas will also be assessed.

C. Inspection and Sanitation Procedures

1. The Government will assess the offeror's proposed inspection procedures, including type, frequency, and amount of inspection to ensure that proper procedures are maintained.

2. Procedures to ensure that the order conforms to the items ordered in the correct quantity, has the proper shelf-life dating, is free of damage and meets industry standards for product quality, will be evaluated.

3. The offeror's Sanitary Control Procedures and Stored Product Pest Management Program will be evaluated. This evaluation will include sanitary inspection reports and any ratings as applicable (e.g. AIB, ASI)

D. Recall Procedures

1. The offeror's recall procedures will be assessed for timeliness and thoroughness. The methods used for notification and identification will be evaluated.

2. The firm's methods for handling various types of recalls will be assessed.

E. Technical Descriptions

The Government will evaluate the offeror's product descriptions to determine if the items offered meet the minimum salient requirements of the items listed in the solicitation. The offeror will be evaluated for its ability to provide items that meet the item description (or commercial equivalent) and for Brand Name items, to provide the desired brand.

IV. SOCIOECONOMIC CONSIDERATIONS

Note: For Socioeconomic Considerations under this factor, only product related direct costs are to be incorporated - NO INDIRECT OR SERVICE RELATED COSTS.

A. The Government will evaluate the offeror's socioeconomic plan to ensure that, to the maximum extent practical, small, small disadvantaged, women-owned small and HUB Zone small businesses are used as both suppliers and subcontractors in support of this Prime Vendor contract. The Government will evaluate the participation levels in terms of percentages and dollar values and comparatively assess the goals amongst the offerors.

B. The Government will evaluate the measures that the offeror will take to ensure equitable opportunity, and further the opportunities, for small, small disadvantaged, women-owned small and HUB Zone small businesses. The offeror that has the highest percentage of participation with small, small disadvantaged, women-owned small and HUB Zone small businesses combined, at the contract and subcontract level, will receive the highest rating. Offerors that are small business concerns will receive additional credit under this factor.

V. DLA MENTORING BUSINESS AGREEMENT (MBA)

The Government will evaluate the offeror's response to participating in the DLA MBA Program and its ability to mentor firms. The scope of the plan will also be evaluated. The responses from offerors on the MBA Program will be evaluated on a comparative basis amongst all offerors. The offeror(s) indicating the most comprehensive plan(s) will receive the highest rating; this rating will be further enhanced if the offeror identifies new business ventures rather than expansion of existing agreements. This evaluation will also be used to determine the offeror's willingness to assist SB's, SDB's and WOSB's in expanding their businesses.

EVALUATION FACTORS FOR AWARD

BUSINESS PROPOSAL EVALUATION

The following evaluation criteria are listed in descending order of importance. Aggregate Pricing (Factor I) is relatively more important than Distribution Pricing (Factor II). However, as the difference in the aggregate prices of technically equal offers decrease, the importance of distribution pricing will increase.

I. AGGREGATE PRICING

The Government will evaluate the offeror's proposed pricing on the items selected from the list of the highest usage items provided by the customers listed in this solicitation. The estimated quantities shall be multiplied by the unit prices to determine the lowest overall cost to the Government. These figures will then be totaled to arrive at an estimated aggregate value. Pricing will be evaluated for all option years in the same manner. All five (5) totals will be added together to determine the lowest overall cost to the Government. There will also be a comparative analysis of item prices to identify unusually high or low pricing on individual items.

II. DISTRIBUTION PRICES

The Government will evaluate each offeror's distribution prices by determining an aggregate distribution price dollar value. This will be determined by multiplying the distribution prices by the estimated yearly requirements for the items listed in the solicitation. The aggregate distribution dollar value will then be evaluated for reasonableness and overall low cost to the Government. Distribution prices, for all categories that do not relate to the market basket items will be evaluated for fairness and reasonableness. The percentage of distribution fee to total aggregate cost will also be evaluated.

III. PRODUCT LISTING

The offeror's current product listing shall be used for informational purposes and will not be evaluated under the Business Proposal.

V. POLICY

A. PVSMV schedules will be approved by the Prime Vendor Regional Manager.

B. Scheduling visits with the contractor will be made by the Account Representative / Buyer for the contract.

C. PVSMVs is to determine that the contractor management methods designated for the contract are sufficient to meet the terms of the contract. Visits will not include overzealous reviews or recommendations to change contractor methods, policies, or procedures when those procedures are working satisfactorily.

D. Findings will be documented and reported as stipulated in this Standard Operating Procedure.

E. A Team leader for the visit will be selected when more than one individual are involved. The Team leader will hold a government pre-meeting with the individuals assigned to establish areas of responsibility, goals, and objectives for the visit.

F. Unless specifically referenced in the contract, contractor methods and procedures are not required to be documented.

VI. PERSONNEL PERFORMING PVSMVs

- A. Personnel performing Prime Vendor Systems Management Visits should have an in-depth working knowledge of the contractor's responsibilities under the contract, and current problems being encountered in administration of the contract.

It is preferable to use a teaming approach to include individuals in the Procurement; Supply, Technical, and Quality Assurance disciplines assigned to the administration of the contract participate in the reviews.

Teaming will make the reviews more comprehensive and professional because of individual expertise in certain performance aspects.

B. Because of the complexity of the contractual relationships and customer service issues involved in Prime Vendor contracts, **PVSMVs should not be performed by third party personnel representing DSCP-HF Prime Vendor Regions unless there is no other alternative.** If a third party individual or activity is requested to perform a PVSMV, care should be taken to assure all aspects of the contractual requirements, status of problems, agreements or remedies are fully understood before designating the review. It may be necessary to limit the areas to be reviewed if a third party individual or activity is requested to perform a PVSMV. However use of subject matter experts is encouraged. For instance USDA-USDC Graders / Inspectors, or Veterinary Food Inspectors may be request to perform product exams of selected products to verify the products conform to the product technical descriptions.

VII. PROCEDURES FOR PERFORMING PVSMVs

A. SCHEDULING

- 1.) Prime Vendor Systems management Visits will be scheduled semiannually, or more frequently if needed.

B. PREPARATION

- 1.) Individuals performing PVSMVs shall review the current contract requirements and review with the Account Representative Buyer, Supply, Quality Assurance, and Technical personnel, those areas requiring special attention. Planning for use of subject matter experts should done in advance to schedule their presence on-site or for other uses of their services. Individuals performing the PVSMV will review the contractor's proposal to familiarize themselves with the negotiated terms.
- 2.) Visits will be announced. The Account Representative / Buyer will schedule the visit on mutually agreed dates of the DSCP representatives and the contractor to assure the visit is productive and necessary contractor personnel are available during the visit.
- 3.) Review of problem or special interest areas will be made with the personnel assigned to administer the contract before departing to conduct the visit.
- 4.) Necessary references, exhibits, or other material will be gathered before departing.

VIII. CONDUCTING THE VISIT

A. The individual or team will brief the contractor's management on the purpose of the visit before starting the review. If possible a current organizational chart and contractor program manuals may be obtained from management. It should be noted that the contractor is not required by contract to possess a "program manual" or procedures documents. However, if they were available they would be useful when conducting the visit.

B. It is recommended that the review be started by having the contractor's representative walk the team through the facility so the review team can ascertain where functional responsibility is assigned.

C. The Prime Vendor PVSMV check lists are to be used to assure consistent review during visits. However, the checklists are not within themselves more than a tool for the visitors to assure necessary areas have been reviewed. The depth of the review of any area will be predicated upon the findings of the visit. If key indicators for the performance characteristic or function are satisfactory, usually that area will not require an extensive review.
