11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

[X] The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers [X] is extended, [ ] is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing Items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. Accounting and Appropriation Data *(If required)*

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

[X] A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: *(Specify authority)* THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.

[ ] B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(such as changes in paying office, appropriation date, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).

[ ] C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:

[ ] D. OTHER *(Specify type of modification and authority)*

E. IMPORTANT: Contractor [ ] is not, [ ] is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

A. SOLICITATION SP0300-98-R-4043 IS HEREBY AMENDED AS STATED WITHIN THIS DOCUMENT.

B. THE DATE SPECIFIED FOR THE RECEIPT OF OFFERS HAS BEEN EXTENDED TO TUESDAY, OCTOBER 20, 1998, 3:00 P.M., PHILADELPHIA TIME.

C. ATTACHMENTS ARE ALSO INCLUDED AS PART OF THIS AMENDMENT.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER *(Type or print)*		16A. NAME AND TITLE OF CONTRACTING OFFICER *(Type or print)*

15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
(Signature of person authorized to sign)		BY *(Signature of Contracting Officer)*	

1. The following changes are made to the Market Basket of Items:

ZONE 1:

ITEM 21. CHEESE BLEND, PIZZA: The unit of issue is changed from LB to BG.

ITEM 28. COFFEE, ROASTED, GROUND: The unit of issue is changed from LB to CN.

ITEM 29. JUICE, ORANGE: Description is clarified to read 3 gal - bag in a box. Item is not necessarily frozen.

ITEM 42. PHILIPPINE STYLE EGG ROLL: The unit of issue is changed from EA to CO.

ITEM 45. BREAKFAST SAUSAGE: The unit of issue is changed from BX to LB.

ITEM 47. RICE, PARBOILED: The national stock number is changed from 8920-01-530-2185 to 8920-00-530-2185.

ZONE 2:

ITEM 28. COFFEE, ROASTED, GROUND: The unit of issue is changed from LB to CN.

2. For any OCONUS Customer, i.e., Panama, Haiti, Honduras, which requires products to be loaded onto seavans, the following applies:

The Defense Transportation System allows for "point to point" service. This means that the responsible carrier located in the vicinity of whomever is awarded this (these) contract (contracts) will deliver the empty containers to the vendor's facility. The vendor will be responsible for inspecting, correctly loading, blocking, and bracing the container. The vendor is also responsible for providing the pallets. The carrier will then pick up the loaded containers and deliver them to the applicable port. The vendor will be responsible for necessary paperwork and scheduling of receipt of containers in order to meet barge schedules. Therefore, delete any reference to delivery to the port. Inspection and acceptance remains at destination.

3. Delete any reference to Ecuador in the solicitation. Ecuador is deleted as a customer in Zone 2.

4. Page 38, delete paragraph E. Substitute with the following: "The "Date of Pack" and the "Best if Used by Date" case markings shall be based on the manufacturer's established dates."

5. Page 45, add the following sentence to paragraph E.: "Deliveries to ships shall be made to the brow of the ship."

6. Any reference to "Mayport FISC" in the solicitation should be substituted with "FSC (Fleet Supply Center) Mayport".

7. Page 131, add the following to "THE FOLLOWING INFORMATION MUST BE SUBMITTED IN WRITING:"

"15. Socioeconomic goals as requested under Section IV., B.2. and 3., of the Socioeconomic Considerations/DLA MBA Program."

8. Page 141, add an asterisk (*) to Paragraphs B. 2 and 3.

9. The full text of Clause 52.226-1, Utilization of Indian Organizations and Indian-Owned Economic Enterprises, is included as part of this amendment. The solicitation incorporated this clause by reference only.

10. Reference is made to the following attachments which are included as part of this amendment:

1. Clause 52.226-1
2. Preproposal Conference Summary - 9/17/98
3. Questions & Answers
4. Sign-In Sheet of Preproposal Conference - 9/17/98
5. Preproposal Conference 9/17/98 Briefing Charts
6. Current Prime Vendor Catalogs for Zone 1 & Zone 2
7. Food Item Code Listing

11. The closing date for Solicitation SP0300-98-R-4043 has been extended to Tuesday, October 20, 1998, 3:00 p.m., Philadelphia time.

D. ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.

52.226-1 UTILIZATION OF INDIAN ORGANIZATIONS AND INDIAN-OWNED ECONOMIC
ENTERPRISES (SEP 1996)

(a) For Department of Defense contracts, this clause applies only if the contract includes a subcontracting plan incorporated under the terms of the clause at FAR 52.219-9, Small, Small Disadvantaged and Women-Owned Small Business Subcontracting Plan. It does not apply to contracts awarded based on a subcontracting plan submitted and approved under paragraph (g) of the clause at 52.219-9.

(b) Definitions. As used in this clause:

"Indian" means any person who is a member of any Indian tribe, band, group, pueblo, or community which is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs (BIA) in accordance with 25 U.S.C. 1452(c) and any "Native" as defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1601).

"Indian organization" means the governing body of any Indian tribe or entity established or recognized by the governing body of an Indian tribe for the purposes of 25 U.S.C., chapter 17.

"Indian-owned economic enterprise" means any Indian-owned (as determined by the Secretary of the Interior) commercial, industrial, or business activity established or organized for the purpose of profit, provided that Indian ownership shall constitute not less than 51 percent of the enterprise.

"Indian tribe" means any Indian tribe, band, group, pueblo, or community, including native villages and native groups (including corporations organized by Kenai, Juneau, Sitka, and Kodiak) as defined in the Alaska Native Claims Settlement Act, which is recognized by the Federal Government as eligible for services from BIA in accordance with 25 U.S.C. 1452(c).

"Interested party" means a prime contractor or an actual or prospective offeror whose direct economic interest would be affected by the award of a subcontract or by the failure to award a subcontract.

(c) The Contractor agrees to use its best efforts to give Indian organizations and Indian-owned economic enterprises (25 U.S.C. 1544) the maximum practicable opportunity to participate in the subcontracts it awards to the fullest extent consistent with efficient performance of its contract.

(1) The Contracting Officer and the Contractor, acting in good faith, may rely on the self-certification of an Indian organization or Indian-owned economic enterprise as to its eligibility, unless an interested party challenges its status or the Contracting Officer has independent reason to question that status. In the event of a challenge to the self-certification of a subcontractor, the Contracting Officer shall refer the matter to the:

U.S. Department of the Interior
Bureau of Indian Affairs (BIA)
Attn: Chief, Division of Contracting and
Grants Administration
1849 C Street, NW, MS-334A-SIB
Washington, DC 20245

The BIA will determine the eligibility and notify the Contracting Officer. The 5 percent incentive payment will not be made within 50 working days of subcontract award or while a challenge is pending. If a subcontractor is determined to be an ineligible participant, no incentive payment will be made under the Indian Incentive Program.

(2) The Contractor may request an adjustment under the Indian Incentive Program to the following:

(i) The estimated cost of a cost-type contract.

(ii) The target cost of a cost-plus-incentive-fee prime contract.

(iii) The target cost and ceiling price of a fixed-price incentive prime contract.

(iv) The price of a firm-fixed-price prime contract.

(3) The amount of the equitable adjustment to the prime contract shall be 5 percent of the estimated cost, target cost, or firm-fixed-price included in the subcontract initially awarded to the Indian organization or Indian-owned economic enterprise.

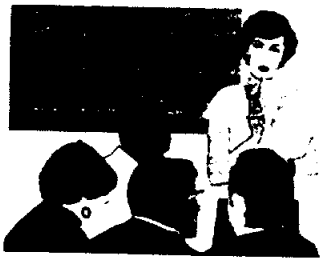
(4) The Contractor has the burden of proving the amount claimed and must assert its request for an adjustment prior to completion of contract performance.

(d) The Contracting Officer, subject to the terms and conditions of the contract and the availability of funds, shall authorize an incentive payment of 5 percent of the amount paid to the subcontractor. The Contracting Officer shall seek funding in accordance with agency procedures. The Contracting Officer's decision is final and not subject to the Disputes clause of this contract.

SP0300-98-R-4043
PREPROPOSAL CONFERENCE - SEPTEMBER 17, 1998
BRIEF SUMMARY OF DISCUSSION

The following is a summary of the Preproposal Conference held at the Defense Supply Center Philadelphia on September 17, 1998 covering Solicitation SP0300-98-R-4043 for Subsistence Prime Vendor Support in Florida, Kings Bay, GA, Guantanamo Bay, Cuba, Panama, Haiti, Honduras, and AUTEC. It should be noted that this summary is not verbatim. A copy of the briefing charts used and the sign-in sheet are also attached for information purposes.

**Questions asked during the conference and those submitted in writing will also be stated.*



Pat Amendolia, Contracting Officer, opened up the meeting by welcoming and thanking everyone for coming. Everyone was asked to please sign in. DSCP introductions were then given for the DSCP Personnel present.

Thomas Lydon - Program Manager
Kathy Morris - Contract Specialist
Ed Lees - Account Manager
John Tolomeo - Account Manager
Walt Riess - Office of Counsel
Lynn Georges - Office of Counsel
Genevieve Venturo - Business Counseling Center

Other DSCP representatives were also present for informational purposes.

Handouts were made available. Briefing charts on the solicitation and the Subsistence Total Ordering and Receipt Electronic System (STORES) were distributed. Extra copies of the solicitation, national and local stock catalogs, and personnel cards/phone numbers were also made available.

Pat Amendolia went through a summary of the agenda, basically what was expected to be accomplished during the day. The plan was that Mr. Tom Lydon would kick off the meeting with a few minutes of a video, an excerpt of Dr. J. Gansler, Undersecretary of Defense for Acquisition and Technology, discussing the Prime Vendor Program in general. After the video, Tom would go over the acquisition strategy, Mr. Joe Casella would brief systems issues, and Ms. Pat Amendolia would discuss Oral Presentations. It was stated that questions could be asked at any time, and were encouraged to be asked during the briefing. Any questions that could not be answered immediately would be included in the forthcoming amendment along with a summary and all questions and answers posed during the conference. It was estimated that the Conference would end by noon or 12:30 and then DSCP personnel would be available for the rest of the day.

Tom Lydon greeted everyone and spoke a little bit about our prime vendor program. He welcomed everyone on behalf of BG Mongeon, Commander of the Defense Supply Center Philadelphia, and Captain Paul Bland, Director of Subsistence. It was mentioned that this Preproposal Conference was a good opportunity for industry and the Government to get together and talk about the solicitation and to answer any questions concerning the requirements.

In the Southeast Region, we currently have ten contracts operating. The Southeast Region does extremely well; we had one of our best months this past July where we show sales totaling $12 million. Our primary mission is to provide prime vendor subsistence support to our military troop issue customers. In addition to the military, our customer base may include anyone who is federally funded. The Program is a success and has the attention of the folks in the Pentagon

where acquisition reform is a very hot topic. As a side note, it was mentioned that today was the Air Force's birthday celebration.

After the video, Tom began with the DSCP Vision. Basically our vision, "To be the Worldwide Provider of Federal Logistical Services, Champion of Military Readiness, and Leader in Business Innovation," is our advertisement. There are a lot of food buyers out there but the one thing that is different with us is that our focus is on the troop issue function. We are unique in the fact that we have a go to war function. We have many different types of customers, i.e., hospitals, bases, dining halls, and these different types of customers all have different requirements. One thing everyone should take into account that is different is our requirement for surge and mobilization. This may cause a change in the requirements. The Southeast usually must contend with natural disasters more than other surge disasters. Nonetheless, $1 billion of food sales per year is a nice piece of business. That is what DSCP did last year in food alone.

We have been in the process of changing our business practices over the past few years. Next year we will be down to one warehouse located in Japan. We do have two other Business Units, Rations and Produce. Rations include MREs and Traypack items for field feeding and combat programs. A more commercial type Rations program that industry should be aware about is the UGRA. It was noted that this solicitation does not include fresh fruits and vegetables and therefore, will not be evaluated.

The customers to be supported on this solicitation were listed for each zone. The customers for Zone 1 are: Mayport Oasis Galley, Mayport FSC, Jacksonville General Mess, Jacksonville Naval Hospital, Cecil Field, Kings Bay TRF, Kings Bay Galley, Guantanamo Bay Cuba (GTMO), and Panama (Port of Jacksonville). Mayport represents the ships and they also maintain stock. The only aircraft carrier in the Southeast is at Mayport - USS Kennedy. Cecil Field is scheduled to close in 1999. As a matter of information, Camp Blanding has a very high increase in business during the summer. We will support them until they go away. It is common to see customers downsize or go away. Panama orders will be leaving from the Port of Jacksonville, as well as

orders for Guantanamo Bay. This zone covers 2 export missions, GTMO and Panama. The estimated dollar value of the base term for this zone is $11.6 Million. The estimated dollar value, inclusive of options, is $58.1 Million. Customers for Zone 2 are basically the rest of Florida stretching all the way down to Key West: Camp Blanding, Patrick AFB, Port Canaveral, MacDill AFB, Key West Diving School, Key West NAS, USCG Miami Beach, USCG Clearwater, USCG St. Petersburg, USCG Key West, Krome Detention Center, Miami Job Corps, Haiti (Port Everglades), Honduras (Port Everglades), and AUTEC (Port Canaveral). There is just not a lot of military presence in this part of Florida. Haiti, Honduras, and AUTEC were added to this zone to increase the anticipated dollar value. There is a slight possibility that Haiti and Honduras could switch zones, but if they do, they will remain together. There is a current contract that supports AUTEC; this customer will be added to this contract after their current contract expires. If all options are invoked, AUTEC will be added in 2001. The estimated dollar value of Zone 2 is $4.1 Million. The estimated dollar value, inclusive of options, is $23.5 Million. Our objective is to handle all customers in the SE Region under 8 (on or about) contracts.

The acquisition process was reviewed, beginning with the Preproposal Conference. Tom made an analogy as to where you are in this process. If you were standing in a Mall at a Map, it would say "You are Here !", referring to the Preproposal Conference, of course. An amendment usually follows all preproposal conferences, which should come out some time next week. The amendment will include the Preproposal Conference Briefing Charts, all questions and answers, and the sign in sheet. It should be noted that attending the Preproposal Conference is not a prerequisite for offering. The closing is set for October 8th. If anyone has an issue with this closing date, speak up now. As a matter of information, the last two solicitations were not extended, but we have extended in the past. We will be doing Oral Presentations in lieu of written technical proposals. Specifics will be discussed later on by Pat, but it should be mentioned that we are trying to take some of the burden off of doing proposals. Oral Presentations saves time in writing the proposal but not in the actual preparation, of course. Our sole goal is to select who would be our best business partner. Our paychecks come out of the business that we do. Our

surcharge is based on our operating expenses. We do not get any appropriation. We have to do business in order to come up with our operating expenses. We must make sales, maintain sales, and grow our business. The solicitation incorporates Oral Presentations into Source Selection Acquisition Procedures. We are not just looking at price; however, price is always important. For purposes of this solicitation, technical is weighted more than price. Site visits are always part of our process. We look at each offeror's operation. We verify what you told us in your proposal that exists in your facility. We are looking for good things too. Sometimes you may have forgotten to tell us some wonderful things about your facility and we will notice them during the site visit. Generally, there are usually some type of negotiations that take place but realize that the Government reserves the right to award without discussions. As we move further along and the offers get more complete and sophisticated we will move toward awarding without discussions. Pay attention to that because it is a possibility. If we do have negotiations, we will ask for proposal revisions and/or final proposals.

QUESTION: "IN THIS ACQUISITION, WILL THE GOVERNMENT ASK FOR A BEST AND FINAL?"

No. This acquisition is under the FAR Rewrite which eliminates Best and Final Offers (BAFOs). However, we will be looking for proposal revisions and/or final proposals. The old procedures for BAFOs no longer exist.

Continuing on, after award, which we expect to take place in January 1999, we would have the Post Award Conference. That is the last step in the acquisition process and is held soon after award. We shouldn't get ahead of ourselves, though, we need our business partners first.

As previously stated, the technical evaluation factors are more important than price. The technical evaluation factors are as follows, listed in descending order of importance:

1. *Corporate Experience / Past Performance*
2. *Distribution System / Capability*
3. *Quality Assurance*
4. *Socioeconomic Considerations / DLA Mentoring Business A Agreement*

The theory is that past performance is the best predictor of the future, so Past Performance is the top factor. Even though we do have it combined with corporate experience, it is still number one.

The technical proposal shall be done via an Oral Presentation. Offerors must submit Briefing Charts ahead of time. Take note of the following suggestion and this would apply whether doing a written technical proposal or an oral presentation: ADDRESS THE QUESTIONS IN THE SAME ORDER THAT THEY ARE ASKED. IT HELPS THE TECHNICAL PANEL WITH THEIR EVALUATION. It also helps you, the offeror, not to miss something.

We use long term contracting methods. This solicitation is for an Indefinite Quantity Contract with a 10% minimum guarantee. Compliance with these prime vendor contracts is pretty good. The guaranteed minimum is not carved in stone but we do like to keep it at a low end. Usually on these types of contracts, the guaranteed minimums range from 10% to 25%. There is a one year base term with four one-year options. During the last year of the contract we will take a hard look at the data. The vast majority of the options have been executed. Few have not. This is a best value source selection acquisition. Someone will come by later and brief the STORES system, the Government's new ordering system. All potential offerors need to know that this entire program is electronic except for the invoice. There are electronic catalogs, electronic orders, electronic receipts, and electronic payment (EFT). The only non-electronic piece to this program is the written invoice; and we are testing electronic invoicing as we speak. Perhaps next year we will be able to move into electronic invoicing. The only way to support the number of customers and the number of deliveries is to use an electronic process. This electronic process is necessary to keep things moving. Most deliveries are done on a skip day cycle. The customers are used to that and it really does help the fill

rate. There are a minimum of a few customers that require next day delivery. We have close to one thousand delivery points in the Southeast alone.

The Payment Office is DFAS Columbus. Invoices are sent to Columbus. If they cannot make payment or reconcile an invoice, we will help you as much as we can. By January 1999, all payment must be done via EFT. Currently all the Southeast Prime Vendors get paid by EFT. However, even when EFT is implemented, DFAS is still mailing a detailed summary to the vendor. The Prime Vendors get paid really fast. The Government payment system is a wonderful world. It is very important that the customer gets his receipts done on time. The invoice data must be complete. The good news here is that vendors will get paid in seven days, seven days from when DFAS receives a proper invoice. Tom stated his opposition to this; he feels that seven days is too quick. With the Prompt Payment Act, Congress never allowed for such things as a mixed invoice. Pre-prime vendor, you could send in an invoice, and basically get four different checks: payment in 7 days for meats, payment in 10 days for fats and oils, payment in 15 days for fresh fruits, and vegetables, and paid in 30 days for everything else. The Prompt Payment Act needs to have coverage on mixed invoices, but since it doesn't we had to go to the lowest common denominator - 7 days as it was required for meats. If everything works well, DFAS pushes a button and an EFT payment is made on an invoice. However, the detailed summary still gets mailed so when you receive your payment, which more than likely will be received before your detailed summary report, you may not know where to apply this payment. Tom stated that he would like to see payment terms somewhere in the range of twelve to fifteen days. What exactly should the number be? We're not sure, but we do need time to correct any problems. In the seven day timeframe, we have no time to be proactive. Many things could happen, a customer may not post a receipt right away or our system may be down. The mainframe is in Columbus, Ohio and there is a different system in between. If we had more time up front, more invoices would get paid complete. Right now, DFAS will pay the lesser amount of the amount in question. We spend a lot of time and effort on payment and invoices. Of course, the Prime Vendor needs to do his share and make sure that their invoice is correct and contains all the necessary data.

Obviously, early in the program we had more problems. We have come a long way and are seeing much better results. There used to be a joke about firms' DOS Report (Days of Outstanding Sales); when we first started the program we invented a new report, MOS Report (Months of Outstanding Sales). As a matter of information, our Fiscal Year begins in October.

QUESTION: WHEN DO WE EXPECT STORES TO BE FULLY OPERATIONAL?

We did budget for STORES in FY 98 but it just didn't happen. Currently STORES is being tested at a few locations in the United States. In the Southeast, Parris Island is the test site so STORES is currently being used there. STORES is currently being installed in Europe as that gets rolled out. By the time we are ready for STORES, it will have been well tested in Europe, as well as in Alaska. STORES is also being installed in Hawaii. STORES basically does the same thing as SPVI and then some. It is NT based versus DOS and has Internet capabilities. For purposes of this solicitation, we are looking at STORES being ready for us in the March/April time frame. We have to have STORES fully implemented by the end of the calendar year 1999 because as far as we understand it, SPVI is not Y2K compliant.

QUESTION: CAN WE TALK ABOUT ELECTRONIC INVOICING?

Sure. We currently don't know much about it. We do support it. There is a couple of different ways of doing it. One way is being tested right now, not in our region though. When we get the results and are ready to go with it, naturally we will send information out about it. You would send an electronic invoice to Columbus and the process would start from that point on. We are working toward that right now.

Continuing on with the NAPA Program. . . National Allowance Pricing Agreement. We do expect our business partners to work with us on this. It is a wonderful program where we have negotiated with manufacturers to give us military discounts based on the high volume of the Government's purchases nationwide. Our customers benefit from these savings up front as the prime vendor must pass along the

allowance to the customer in the SPVI catalog and then later will get reimbursed from the manufacturer later on. Something that we have to work on is to see the dollars grow on this program. They should be much higher than what they currently are considering the quantities that we are purchasing. Our current business partners should be getting letters this week that the NAPAs are going to be posted on our Homepage beginning in October. Everyone will be getting a password. We are told that you will be able to sort by vendor, by stock #, and by nomenclature. In the past we used to mail paper NAPAs. There were some problems with this method. Now as the NAPAs are on the Homepage it is the responsibility of our business partners to keep themselves current with all the allowances and to keep their catalog reflective of such allowances.

Speaking of our Homepage, you can also visit our website and see a picture of Captain Bland, if you would like. A listing of all current prime vendors can also be found there.

QUESTION: IS IT STILL THE CASE WHERE THE NAPAs WILL ONLY BE UPDATED EVERY 6 MONTHS? THIS CAN CAUSE BIG PROBLEMS. IN THE PAST, THERE HAS BEEN A LOT OF CANCELLED NAPAs THAT WE HAD NEVER RECEIVED PAPERWORK ON BUT CONTINUED TO KEEP PASSING ALONG THE ALLOWANCE TO THE CUSTOMERS. THEN WHEN WE GO TO COLLECT THE ALLOWANCE BACK FROM THE MANUFACTURER, THEY ARE NOT WILLING TO REIMBURSE US AS THE NAPA IS NO LONGER IN EFFECT. THIS INFORMATION MUST BE TRANSMITTED TIMELY.

We have to start somewhere and move away from this paper process. We have been told by the people managing this program that when the changes are posted, there will be some kind of indicator pointing to where the change is. It would also be a good idea if the deletes were displayed too. Some firms indicate that you need an original signed document to collect their money. We are told that you will receive that original signature in the mail. Your industry needs to find a way to talk to the Government, to the people that need to hear you, but so far you have not found a way to do that. Tom indicated that he has always been an advocate of a forum like this.

A remark was made to make the point that we always say we want to have industry talk to us and yet the Prime Vendors were not invited to this year's Customer Conference. We understand their point and it is well taken but that decision was not made by us. Hopefully in the future our business partners will be able to attend.

There is an organization that does meet, the ALA - American Logistics Agency, and Tom stated that he is somewhat jealous of that because that is exactly what he would like our industry to pull together. That organization though, focuses on the retail side. However, there are a lot of trade groups out there and industry does need to talk. There is a lot of pressure on a Government acquisition person to do more and more market research. It would be a wonderful thing to see something like this happen. Tom stated that he was also a big advocate of NAWGA/IFDA and making something happen with that. There was a lot of discussion about it but it never got off the ground.

It would be to your advantage to have email access. Email helps to move information more quickly.

QUESTION: CONCERNING REBATES AS AN EVALUATION FACTOR, HOW DO YOU EVALUATE VENDOR TO VENDOR IF BRANDS ARE NOT STATED IN THE PRODUCT LIST? IT WOULD SEEM THAT IT WOULD MAKE A MORE LEVEL PLAYING FIELD IF THEY WERE LISTED. IS THERE A REGULATION STATING NO BRANDING SHOULD BE IN THE DESCRIPTION?

Branding is a hot topic. However, we do state in the solicitation business proposal that NAPAs must not be reflective in the pricing of the market basket of items FOR EVALUATION PURPOSES ONLY. We cannot get someone unfamiliar with the NAPA Program up and running with @ 150 NAPAs. The Army is having the hardest time dealing with branding. The Navy has not come to grips with branding yet. They use FIC Codes, 3 digit codes, associated with the National Stock Numbers and they are generic. Our Counsel Office prefers that we do not use Brand Names in the item descriptions. The customers use a mix of quality levels, some generic, some national brands. It depends on what

they are using the product for. For purposes of the evaluation, it should not matter. As stated in the solicitation, if your firm has a multiple number of products for a certain item, just make sure that the product meets the technical description and matches or is better than the quality level stated. If you have a variety of items that fits this bill, you can submit your lower priced item AS LONG AS IT FITS THE BILL. Branding versus generic will become more important after the contract is awarded and we do the catalog session with the customers. We will be matching each and every item requirement of theirs with a specific item (national branded or not), or a variety of items, in your own warehouse.

QUESTION: WHAT IS YOUR DEFINITION OF BRANDING?

Whatever is on the can. It is not necessarily always the highest quality level. Different levels of quality support different requirements. Remember foreign brands are never accepted.

QUESTION: IS THERE A DEFINITION OF A NATIONAL BRAND? I WOULD LIKE TO HAVE WHAT EXACTLY A BRAND IS CLARIFIED.

It really is irrevalant to this contract. It is more of a quality of life issue. It is important that our soldiers recognize some familiar brands. See answer to above question.

At this point Tom made reference to a customer who was given the opportunity to use Heinz or Hunts. Their prime vendor showed them Heinz and they were all gung ho on cataloging Heinz. Then their vendor told them they could also get Hunts and Hunts would be this much cheaper. So then they said, oh, okay we'll take Hunts. Budgets are a big factor and play a very realistic role here. A customer's eyes may be much bigger than his wallet. The BDFA is tracked and we take a very hard look at it.

Back to the acquisition, Tom then discussed the Berry Amendment to the Defense Appropriations Act. The Berry Amendment is much stronger than the Buy American Act. A Congressman decided that all food (and clothing) must be grown and processed in the United States

and or its territories. Of course, there are some exempted items (canned corned beef, green coffee beans, bulk tea), which are listed in the solicitation, and there are some exempted situations, which may not be listed in the solicitation. This is something that will effect your inventory to some degree. As long as it is domestic we don't have a problem and you should know that price is not an issue here. It must be domestic! If a certain scenario arises, such as a certain item is not available in the quantities required, then we will talk. The Contracting Officer will have to make a decision on a case by case basis. This is a little hard to deal with when we do the catalog session because when you are matching up items in your inventory to the customers' requirements you have to make sure that all the items you match up are domestic. Obviously, all vendors have foreign products for use for commercial customers in their warehouse but we cannot use any of those products.

There are Sanitarily Approved Source Requirements also (i.e., poultry, dairy, seafood, etc.). The solicitation lists the website that contains the information that you need. If that type item is listed, make sure that it comes from an approved facility! How does HACAAP fit in here? It doesn't. It is irrelevant to the Sanitarily Approved Source Requirement issue as it pertains to a statute issue.

The Vets only make a recommendation to the customer on rejection of product. The customer makes the ultimate decision here. All military customers do use VETCOM. The Army Representative made a statement at this point that stated the Army will hang a customer out to dry if they accept product from the Prime Vendor that VETCOM recommended for rejection.

Pay attention to the Mandatory Items listed in the solicitation. Fresh bread, milk, and ice cream will continue to be ordered off of DSCP contracts. One of the mandatory sources also has military unique items to supply for you if required. These items are available through the MUSIC (Military Unique Subsistence Item Coordination) Contract. As a matter of information, the Air Force is working on a separate carbonated beverage contract. This might extend to other services. There is also some talk that this might also include other drinks later on too.

At this point, Mr. Joe Casella began his brief on Subsistence Prime Vendor Systems Requirements.

STORES - Subsistence Total Order & Receipt Electronic System

The Services have their own food ordering systems; they are not standardized between the systems. The Services wanted a single interface with a commercial vendor. EDI is the key; ANSI X-12 is the standard. The current ordering system, SPVI, splits the prime vendor order and the produce order. It has the capability to work with two contracts. STORES is a multi-contract ordering system - it splits the prime vendor order, the produce order, and the market ready order.

The transaction sets required are the following:

850 - Purchase Order
997 - Functional Acknowledgment - goes back to the customer that we received something but does not acknowledge that everything was received, just something.
832 - Catalog Updates - needs to be sent in weekly, on Fridays, with all the changes for the following week's catalog.

Most vendors use a VAN Service. Our Van is DAASC. STORES NT has Internet capability. Most military customers work from a LAP, a local access point and then it flows into their service system. Some customers, i.e., Child Care Centers, Job Corps, use a stand-alone system called a CAF - Customer Access Facility.

The briefing chart shows the communications flow through STORES. (See Chart for more details.) The 850 Order Detail is sent to the Prime Vendor. The 850 Summary is sent to DSCP. An 861 (Receipt) posts the obligations and sets up the payment.

We are currently working on an 810 transaction, which is an electronic invoice. This is something that we won't see for at least 6 months to a year.

QUESTION: WILL THE VENDOR GET A COPY OF AN 861 (RECEIPT)?

That is not the current thinking. It is not an option today. It could be an option, but it would probably cost more. When electronic invoices come into play we can relook at the possibility at that time. We do not expect the vendor's method of getting paper delivery tickets signed by the receiving official to change any.

Moving along, it was noted that there is a DoD Electronic Commerce Information Center. The phone number is 800-EDI-3414. There is also an informational site on the Internet, the Electronic Commerce Regional Center, located at www.saecrc.org .

Other methods of receiving orders in case the system is down is by phone or fax. Even if the system is down the troops must still have their food so we still need to process the orders, manually if not electronically.

The required data fields that need to be on the 850 Purchase Order (Invoice) are: DODAAC, Ship To Information, Delivery Date, Item Description, Vendor Product Code, Unit of Issue, Quantity, Selling Price, Stock Number, Unit of Measure, Purchase Order Number, FIC, and Line Item Number. The call number should be on the right hand side. The Purchase Order number is very important because DFAS looks for that number to make payment. For Navy sites, the FIC (Food Identification Code) is required. The line item numbers (CLINs) should be in numerical order, i.e., 0001, 0002, 0003, 0004, etc. The obligations are set up as a roll up, CLIN 0001 + the Purchase Order Number + the Call Number (Julian Date and the Lap ID).

The required data fields that need to be on an 832 Catalog Update are: Vendor Product Code, Item Description, Units Per Purchase Pack, Package Size, Package Unit of Measure, Current Price, DoD Stock Number, DoD Unit of Measure, Economic Indicator, Comments, and Unit Ratio (PRF). Most vendors put the Brand Name of the item in the Comment Field. IT IS CRUCIAL THAT THE PRF (PURCHASE RATIO FACTOR) IS CORRECT. IF THE PRF IS INCORRECT, THEN NOTHING WILL WORK. The orders won't be right. The invoice won't be right.

It is very very important that you make sure the prf's are correct. It is the ratio of DoD's unit of issue to the vendor's unit of measure. Please spend a lot of time in the beginning on calculating the prf's. It will preclude a lot of problems from occurring later on.

Delivery invoices are very important for payment. They need to include key data so that our payment office can process the invoice for payment. Invoices need to contain: the contract number, purchase order number, customer number (DODAAC), call numbers, and contract line item numbers (CLINs). Put line item numbers in sequential order. It will make things a lot easier. If all the correct data is not on the invoice, it will be returned.

Another requirement is the DoD Management Reports. Some of the usual requested reports are Usage Reports by DoD Stock Number, Usage Reports by DoD Customer Accounts, Pricing Report by Stock Number, Previous Day Sales, Previous Periods Service Level, and Minority Vendor Purchases. Current solicitations may have varied this requirement somewhat to include other types of reports so it would be best to look in the solicitation to see what reports are required.

Joe summarized by saying that vendors should be prepared to create and maintain an electronic catalog. A vendor should be able to submit changes to their catalog by transmission of an 832. Invoices should be annotated at the time of delivery if there is any discrepancy of what is on the delivery ticket and what is being delivered. Management reports must be submitted on a monthly basis. Since the start up for this contract would be in April, it is most likely that STORES will be the system being used. However, there is a small possibility that SPVI could be the system at the time of startup.

QUESTION: WHAT ANSI X-12 VERSION IS BEING USED ?

Currently we are using 30 / 60 but that is not Y2K Compliant. Once we go to Y2K, the version will be 4.1 (40 / 10). STORES IS Y2K compliant.

QUESTION: WILL THERE STILL NOT BE EMAIL CAPABILITY WITH THE CUSTOMERS WITH STORES? IT WOULD BE GREAT TO HAVE THAT LINE OF COMMUNICATION OPEN.

Probably not. The problem being is that when we put different programs on the STORES box then the warranty goes out the window. The SPVI Operator is probably not the person you would want to send an email to anyway. Also, the boxes are unattended for the most part. An Army representative stated that there is an Email avenue open if you use the Army Homepage. Joe stated that he would do some checking into this.

Finishing his brief, Joe just added a hint for the vendors that it would be a good idea to have some sort of buffer set up. We have sent out duplicate orders a few times. Also during implementations we will do testing on 850s and 832s. Joe can be reached at 215-737-3304 in case anyone has a systems question.

At this point, Tom Lydon took over the discussion and went back to the contract strategy.

Socioeconomics plays a vital role in our contracts. There are certain aspects of this acquisition, such as socioeconomics, where our business partners will need to work with us. The first thing that firms will need to do is to find out the size status of their current suppliers. This should be done right away. You will need to know this information anyway because it is a reporting requirement. Socioeconomics is part of our evaluation, as well as another part to that being Mentoring Business Agreements. We expect that a fair amount of your business be from small and small disadvantaged businesses. However, we will never sacrifice on quality or price. As our process becomes more mature, we will look at your past performance in the area of socioeconomics. We will look at reality (what you have done in the past) versus promise (what you propose to do on an acquisition). The legal part of this is the requirement for large businesses to submit a subcontracting plan. This must be approved before award; it is one of the last things consummated. The subcontracting plan is administered outside of DSCP. The Defense Contracts Administration Office in your local area will

monitor your socioeconomic performance as it pertains to your subcontracting plan. They will meet with you to discuss your accomplishments in this area or lack thereof. Some of our current prime vendors have received awards in this area because they have done such a wonderful job and/or exceeded their goals. The definitions for the different size businesses are listed in the solicitation. Suppliers currently self certify. We will also look at your management reports concerning your socioeconomic data. It was suggested that vendors find out now where they stand socioeconomically. Some firms are really surprised at the level of business that they do with small/small disadvantaged businesses. It would be a good idea to get that information now and then use that as your baseline when proposing your goals. The three areas where our contracts strongly influence sourcing are the Berry Amendment, Sanitary Approved Sources, and Socioeconomics. Most of the prime vendors' current catalogs range from 1500 to 1700 items.

Talking about Rebates and Food Shows, the main idea here is that we strive to get the best bottom line for our customers. These rebates could fall in line with the NAPA savings or outside it. If the rebate is a NAPA, you must accommodate that price. Our better business partners work to get us additional rebates above and beyond the NAPA savings. It took us a long time to figure out how to work with Food Shows. We will work the allowances to enable our customers to take advantage of the savings. DSCP will attend the Food Shows on behalf of all the customers and will book products and negotiate savings for them on a consolidated basis. The customers will attend the Food Shows themselves and take advantage of looking at the new and different products that will work for them. All types of new things are always coming out into the Marketplace. Customers can always gain something if they find at least one new product that may work better for them or be more cost effective for them. Food Shows are an excellent forum for them to look at these new foods and talk with new suppliers. DSCP and their customers need to be open to new ideas. Tom gave an example of an instance where Fort Bragg was at a Food Show/Customer Conference and saw a new juice that they thought might work for them. Their prime vendor prepared a blind taste test for them and it wound up that they decided to stay with the product they were

using; but at least they had the opportunity to check out another product. The new supplier was given a fair crack at supplying the customer with their product even though the customer chose not to use it. Tom stated that he talks with more suppliers everyday than he does with distributors.

Management reports are a contract requirement. We need this information and we need it on time.

Once award is made we will have a Post Award Conference. It is generally held near the awardee's warehouse. We like to have a warehouse tour so that we can show the customers that yes, there really is food in here. We will work through all the details of the contract. The next step would be the Cataloging Sessions.

Pricing issues was the next topic for discussion. Pricing is fixed at time of order for deliveries made within the next 6 days from when the order was placed. Therefore, for CONUS customers, pricing is fixed at time of order and for OCONUS customers, pricing is at time of delivery because delivery will me more than 6 days out. Prices are held for one week. A usual pattern for deliveries are: Army - Mondays, Wednesdays, and Fridays; Air Force - Tuesdays and Thursdays; Ships - every day; Marines - Mondays, Wednesday, and Fridays.

QUESTION: FOR OCONUS CUSTOMERS, IS THE VENDOR RESPONSIBLE FOR DELIVERY TO THE PORT OR TO THE CUSTOMER?

The prime vendor is responsible for delivery to the port. The Defense Transportation System will take over and deliver the containers to the customer. However, inspection and acceptance is at destination, the customer site.

QUESTION: WHAT ABOUT THE REQUIREMENT FOR SPECIAL MARKINGS AND LABELING FOR THE SHIPS? ALL OTHER CUSTOMERS WILL ACCEPT COMMERCIAL LABELING.

Ships maintain 60 - 90 days on board. They really need help on managing their inventory, especially with old product. It is very

important that they know the shelf life of their products. That is why they need the Date of Pack and Expiration Date.

QUESTION: WHAT ABOUT MISSING PALLETS FOR OCONUS DELIVERIES?

There will be no pallet exchange for any customer except GTMO. Because GTMO is a closed system and there is Government service down and back, there is an understanding there and the pallets normally do come back.

Back to pricing issues . . .

Price changes are to be submitted via an 832 every week. Submitting entire catalogs are discouraged. Weekly updates include any changes to include price changes, prf changes, additions, deletions, etc. Currently we have 60 electronic catalogs. Catalog prices MUST reflect NAPA discounts. However, for evaluation purposes, DO NOT INCORPORATE THE NAPA DISCOUNTS INTO YOUR BUSINESS PROPOSAL FOR THE MARKET BASKET OF ITEMS. In real life, however, NAPA discounts must be reflected in your catalog up front and then it is your responsibility to bill back the manufacturers.

There are two evaluation factors in the business proposal: Market Basket of Items and Distribution Prices. We design the market baskets to be as reflective as possible of the highest usage items, BDFA items, high dollar items, and any special or unique items that the customers are using. We require a supporting invoice for each and every item in the market basket. Again, do not adjust for NAPA discounts. Pricing must be reflective of your firm's most current prices (preferably two weeks prior to closing). If you do not stock an item listed in the market basket, a price quote is acceptable. However, it should be noted that invoices are a more realistic, reliable indicator than a price quote would be. If two evaluations have an equal rating, the Government will put more weight on the proposal, which has the least amount of risk. The invoices must be numbered to reflect the item. Also, highlight the item on the invoice. Annotate the size of the supplier currently being used. Our thinking on the market basket of items is to preferably go with a

smaller number of items in the market basket but we are looking for a more substantial list of items. Approximately fifty invoices required for documentation is not that many compared to a lot of other market baskets.

We want Distribution Prices offered as a dollar amount based on categories of items, not on an item by item basis. The reason being is that we want to know the distribution price up front so that later on when and if new items are added, there is no need for discussion or negotiations on what the distribution price should be. We don't want to see any conflicts or debates after award. It would be great if you just go by the category listing in the solicitation but if you can't, you can make up your own list. Just remember that there is a limit of 50 categories! An interesting concept mentioned not too long ago was a proposal of $1.00 for everything. This is a different way to approach the distribution prices: it looks good on the more expensive items but it looks bad for the less expensive items. Nonetheless, an interesting concept.

Your business proposal must be submitted on a spreadsheet. You do your own business proposal. We will review your proposal. We have found this to be a better process. We want you to come up with your own bottom line. We recommend Microsoft Excel and ask that both the disk and paper copy be submitted. Separate spreadsheets are required for each year, five all together, one for the base term and four for each of the option years.

QUESTION: WHAT BEVERAGE MACHINES ARE REQUIRED FOR OVERSEAS? WHAT IS CURRENTLY AT GTMO?

Exact requirements are not known at this time. GTMO currently has beverage machines. Exact numbers are not known. Less is known about the other overseas customers but we can find out and pass that information at a later date.

Pat Amendolia then briefed the potential offerors on the subject of Oral Presentations.

The use of oral presentations is a means to communicate a firm's understanding, approach, and experience in accomplishing the requirements of the solicitation. It provides the offerors the opportunity to present information through verbal means as a substitute for the information that we traditionally always asked for in writing. It is an innovative practice. We have done it two times so far. It was done both at DSCP and at the offeror's facility. The process has worked well and has streamlined the process. Our goal is to listen to a presenter, have a question and answer session, and then the technical evaluation panel will rate that offeror before the end of the day. We want to have a rating by the time we leave for that day. This has streamlined the process tremendously. We request certain information of the technical proposal in writing. This list is on pages 130 - 131 of the solicitation. Some of this information is outside the realm of the technical proposal. There is an asterisk next to everything in the Technical Proposal to help you recognize what needs to be in writing. IT IS VERY IMPORTANT that the information requested in writing be submitted at time of closing. Please don't send more than we ask for in writing. Any written technical information submitted, but not requested, will just be returned to you. We will not consider it for evaluation purposes. We won't even look at it.

Key personnel should give the Oral Presentation. The order of the presentations will be decided by lottery. Within five days after receipt of offers, you will be notified of the date of your presentation. Please indicate in your proposal, sent at time of closing, if there are any days, which would not be convenient for you to make your presentation. We will make every attempt to accommodate all requests. We will do the presentation schedule as soon as possible in order to give you the maximum amount of time to prepare for your travel. However, after the presentation schedule is set, we will not make any changes to it. The presentations will be held approximately 10 working days after the date set for closing. They will be conducted here at DSCP, perhaps in the same room as this conference. Presentations are limited to three hours. We will begin at 9:00 and continue until 12:15 with one fifteen minute break. DSCP will not interrupt you with any questions. This is your time and we will not take time away from you. Of course, if someone did not hear something you said, you may be asked to repeat

it. After the presentation, we will break. The Technical Evaluation Panel and the Contracting Officer will have a discussion period and then a question and answer session will follow. You will be required to answer all questions posed to you. You may not ask any questions of the Technical Evaluation Panel or the Contracting Officer. All questions asked will concern your proposal. The Panel may need a better understanding on some issues or may need clarification of something. This question and answer session does not constitute discussions. The Oral Presentation and the Question & Answer Session will be videotaped. We will make available to you an overhead projector, a screen, a screen, and a monitor. If there is any other audiovisual equipment required, it is your responsibility. COPIES OF THE BRIEFING CHARTS MUST BE SUBMITTED AT TIME OF CLOSING. No briefing charts will be permitted for use during the Oral Presentation if they are not submitted at time of closing. Also, you may not alter your briefing charts between the closing and the Oral Presentation. Names of presenters must also be stated.

Pat again stated, as Tom did earlier, please, please, please follow the Technical Proposal submission requirements as they are stated in the solicitation. This will not only help the people evaluating you; it will ultimately help you. If the Technical Evaluation Panel has a clearer understanding of your proposal and can follow what you are presenting, it is less likely that they will miss something that you are trying to convey. If they have to bounce back and forth and try to figure out where you are saying what, it will be much more difficult to do the evaluation.

No pricing information should be in the Oral Presentation.

Pat summed up her portion and just said that there are three points of contact for this acquisition. They are she, acting in the capacity of Contracting Officer, Kathy Morris, Contract Specialist, and Tom Lydon, Program Manager. Their phone number, fax number, and e-mail addresses are on the handout. Our web address is also listed.

Tom wanted to say a few things in conclusion at this point. He suggested that everyone obtain some type of FAR as it was expected of

them to subscribe to it and be familiar with the clauses and regulations. There are websites available and you also could get a paper copy by contacting the Superintendent of Documents.

Next Tom wanted to read a couple of changes from the FAR Rewrite, which should be of interest to all.

"The Contracting Officer need not cover the same issues with each offeror or hold the same number or length of discussions with each offeror."

"An offeror may be eliminated from the competitive range if they are no longer considered to be among the most highly rated offerors, whether or not discussions are complete or whether or not a revised final proposal has been submitted."

The idea here is that we want to stop a vendor from incurring costs. Our new stand is that if an offeror is not among the most highly rated offerors, then that offeror will be taken out of the Competitive Range. This means that there will be numerous firms, which will no longer receive consideration and will now be placed outside the competitive range, where previously the Government may have elected to keep them in. This could happen even if your firm receives a rating of "Good"; a number of other offerors may have received a rating of "Excellent". Something else new here is that you are entitled to a pre-award debriefing if you are notified that you are not considered to be within the competitive range. You should take advantage of this opportunity and submit your request to the Contracting Officer within three days of notification. A pre-award debrief, however, will only deal with your own proposal and its deficiencies/strengths. The Contracting Officer will not be able to reveal anything about any other proposal. If you request a debrief, you should do so immediately. It could be that we forgot something or missed something and you could possibly be put back into the competitive range. However, you are only entitled to one debrief, be it a pre-award or post-award. Even successful offerors should be debriefed. We can do debriefs in person here at DSCP or at the offeror's facility or we can do them over the phone. We normally notify offerors on the day of award, have a brief discussion and then

have the debrief at a later date. This will give you time to think of your questions.

". . . the Contracting Officer is still prohibited from favoring one offeror over another or revealing any of one offeror's information to another offeror."

We consider your proposal extremely sensitive and we label it as such, even for post award scenarios.

"Requests for final proposal revisions shall advise offerors that the final proposal revision shall be in writing and that the Government intends to make award without obtaining further revisions. After receipt of final proposal revisions, minor informalities may be clarified without an additional request for final offers from all offers."

Best and Final Offers (BAFOs) no longer exist under the FAR Rewrite. You may be required to submit a proposal revision and/or a final proposal revision. In the beginning we used to have 3 rounds of discussions. We have been able to do most of our buys with 2 rounds of discussions recently. Soon there will be no need for any discussions and awards will be made on the basis of initial proposals. DO NOT WAIT for a best and final to blow our socks off. Don't hold anything back. There are no more best and finals. Since we are getting closer and closer to not having discussions, put your best foot forward when you submit your initial proposal. This could be the acquisition where we do not hold discussions. We can ask for minor information to clarify something without opening discussions.

QUESTION: WHAT IS THE CHANCE OF HAVING THE CLOSING DATE EXTENDED?

You have to convince the Contracting Officer of your need for an extension. Call Pat within a few days and let her know and she will make the decision.

The length of time that it takes from closing to the time of award is usually 2 ½ to 3 months. Some acquisitions have gone quicker. It really depends on the number of offers received.

Tom had two issues that he wanted to end with. He is very comfortable with using commercial practices and feels that this program does very well for the customer. Tom advocates organizations like the ALA. As he previously said, there is a need for the Government to talk to industry. We have a friendly relationship with NAFI. When industry comes together as a group and relays their general feelings on certain issues, it has more weight than just if one or two come forward. This will have more of a positive impact on industry than with the Government so you should really think about getting something organized if you want your opinions heard. His last thought was to say that this program is a positive process for the customer and on behalf of the customer, take a hard look at their requirements. This is good business for good customers !

This concluded the Preproposal Conference for Solicitation SP0300-98-R-4043. Pat Amendolia thanked everyone for coming and told potential offerors that if they had any questions as they were preparing their proposals, to feel free to call her or Kathy Morris.

DSCP Personnel made themselves available in case anyone wanted to remain for any discussion.

=== THE END ===

Pat Amendolia

CONTRACTING OFFICER

QUESTIONS & ANSWERS

The following questions were submitted in reference to Solicitation SP0300-98-R-4043:

Q: What is "ESL" & "UHT" Dairy items?

A: Extended Shelf Life and Ultra High Temperature Milk.

Q: How are MUSIC items billed to the prime vendor from ARC Diversified?

A: Items purchased from ARC Diversified by the Prime Vendor would be handled in the same manner that your commercial suppliers bill you.

Q: Where can we obtain a copy of Title 21, Part 110 of the code of Federal Regulations regarding Sanitation?

A: They are available through the Internet: www.fda.gov *(FDA's Home Page). Just click on Index, and then click on C.*

Q: What are FIC (Food Identification Code) numbers and how are they obtained?

A: FIC Numbers are associated with stock numbers. The Navy uses FIC Numbers to make their food purchases in the same way that the other Services use Stock Numbers. A list of FIC Codes are attached to this amendment.

Q: In addition to the 50 market basket items, the MUSIC items and the NIB/NISH mandatory items, what specific items are required to be stocked by the prime vendor to service those customers in each of zone #1 and zone #2?

A: Total food and beverage subsistence support is the requirement of this solicitation. Each customer expects to be able to order all of their food and beverage needs from the firm who receives this award. The awardee must stock sufficient quantities of all of the customers' requirements in order to support skip day deliveries. A copy of the current catalog for each zone is attached to this amendment. The 50 market basket items are for evaluation purposes only and does not reflect the only items needing to be supplied to the customers. There are three stock catalogs that list all items, which the customers may require. However, a more realistic picture of the customers' requirements are the current prime vendors' catalogs.

Q: Geographically Camp Blanding in Starke, FL is closer to those Locations in Zone 2 but this location is listed in Zone #1 - can this be changed?

A: Camp Blanding is located in Zone 2.

Q: Crowley ships Panama out of Port Everglades but Panama is shown shipping from Jacksonville. Will/can this be changed?

A: The carrier will deliver the containers to the awardee, the awardee will be responsible for loading, blocking, and bracing, and the carrier will pick up the container and deliver to the applicable port. The amendment will clarify this statement.

Q: MacDill AFB Hospital lists delivery times as Monday and Friday. Total annual volume for this location is $127,500. The Dinner Reef location at MacDill has an annual volume of 380,000 but only required

twice/week delivery. Can the Hospital deliveries be reduced to two per week vice five?

A: Currently MacDill AFB Hospital receives deliveries 2X per week.

Q: Are there specific (dietary) items that need be stocked only for the Hospital?

A: See attached Catalog.

Q: The delivery schedule for the ships at Kings Bay and Mayport is listed as Monday, Wednesday, Friday and Monday through Friday respectively. Will orders be placed for each delivery day on the schedule for Kings Bay and daily for Mayport - or - will orders be placed to fill warehouses as the Ships prepare to leave port? I.e., will deliveries be daily or will there be several trucks delivering on one day and no deliveries on the other days listed on the delivery schedule?

A. The warehouse does not stock for the Galley. Orders are placed as needed. There is probably no set schedule; it is dependent upon who is in port and when there are ships coming in. There is also a Galley who is placing orders for deliveries 2-3 times per week. Currently Kings Bay gets deliveries on a regular basis 2 X per week, Monday and Thursday.

Q: What is the percentage of business of just the aircraft carrier (Kennedy) located at Mayport of the estimated total?

A: Approximately 15%.

Q: Are both the stock number and the FIC number required on the special markings for the ships?

A: Yes.

Q: Would the ship customers take a code breaker spreadsheet in lieu of the Date of Pack/Exp Date markings on the case since the manufacturers' codes are usually coded?

A: No, because of the ships' special requirements at sea, it is very important that they have the Date of Pack and Best if Used By date. This is a very big issue with the Navy.

Supporting America's Fighting Forces

Acquisition Process

- Preproposal Conference - Sept. 17, 1998
- Amendment to Solicitation - @ Sept. 23, 1998
- Closing - Oct. 08, 1998
- Oral Presentations/Evaluations by the Technical Panel - @ Oct. 19-30, 1998
- Site Visits - Nov. 1998
- Negotiations - Nov./Dec. 1998
- Possible revised proposals - Jan. 1999
- Final Proposal - Jan. 1999
- Award! - Jan. 1999
- Post Award Conference - Jan./Feb. 1999

Evaluation Factors for Award

TECHNICAL > PRICE

- Corporate Experience/Past Performance
- Distribution System/Capability
- Quality Assurance
- Socioeconomic Considerations/DLA Mentoring Business Agreement

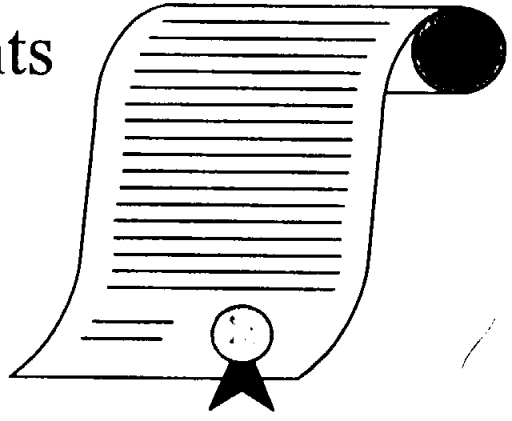
Supporting America's Fighting Forces

Contract Strategy

- Long term contracting
  - Indefinite Quantity Contract (IQC)
  - 10% Guaranteed Minimum/125% Ceiling/150% ALT
  - Base term with 4-one year options
- Best Value = Service > Price
- Electronic Ordering
  - STORES
- Tailored Deliveries
- Inspection and Acceptance: Destination
- Vendor invoices DFAS Columbus
  - EFT
  - Electronic Invoicing

Contract Strategy (cont.)

- NAPA - National Allowance Pricing Agreement
  - Beginning Oct. 98 - Homepage
- Berry Amendment - Defense Appropriations Act
  - Exemptions
- Sanitarily Approved Source Requirements
  - Poultry, Dairy, Seafood Items
- Bread, Milk, & Ice Cream
- Mandatory/MUSIC Items

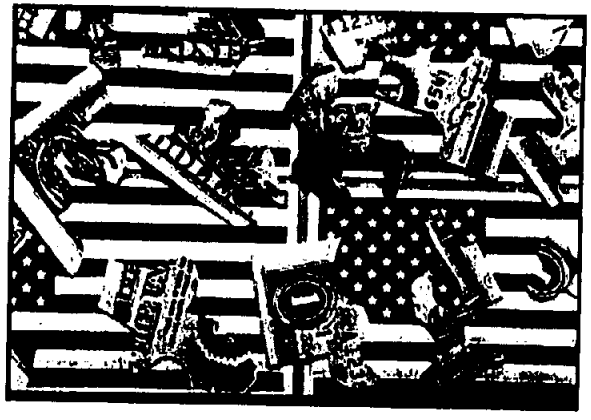


Contract Strategy (cont.)

- Socioeconomics
- Subcontracting Plan
  - Large Business Requirement
- Rebates/Food Shows
- Management Reports
- Post Award Conference

Pricing Issues

- Pricing
  - CONUS Customers: Fixed at time of order
  - OCONUS Customers: Fixed at time of delivery
- Prices are fixed for 1 week
- Price Changes (832's) submitted every Friday NLT 1:30 PM



- Submitting entire catalogs are discouraged
- Catalog prices must reflect NAPA discounts

Business Proposal

- Evaluation Factors
  1. Pricing for Market Basket of items - Aggregate Dollar Value
     Delivered Price + Distribution Price = Unit Price
  2. Distibution Prices - Aggregate Dollar Value = Based on
     Categories of Items
- Market basket of Evaluated Items
  = Submit Current Pricing: Invoice Documentation required for all items. Invoice should be numbered to reflect the item being referred to. Highlight item on the invoice. Size of current supplier annotated. Submit pricing in the same Unit of Issue as stated.
  = Pricing must be inclusive of Option Years: one spreadsheet for each term - 5 totals - one Grand Total
  = Do not adjust for NAPA Discounts

Business Proposal (cont.)

- Distribution Prices
  - = Must be offered as a dollar amount
  - = Fixed for Term
  - = Category limit of 50
  - = Percentage increase or decrease per option term
- Spreadsheets
  - = Recommend Microsoft Excel
  - = Submit Disk & Paper Copy
    - ✦ Virus Check
  - = Separate spreadsheet for each term - 5 total

Briefed by: Joe Casella

Supporting America's Fighting Forces

Oral Presentations

- Provides Offerors the opportunity to present information through verbal means as a substitute for the information traditionally provided by the written Technical Proposal
- Innovative Practice - Done previously on site and at DSCP
- Written Technical information required for Technical Proposal - stated on pages 130-131 of the solicitation*, which also includes other required written information outside the realm of the Technical Proposal.
- Any written technical information submitted, but not requested will be returned and not considered during the evaluation process.

Oral Presentations (cont.)

- Specifics
  - = Should be made by key personnel
  - = Order of presentations will be decided by lottery
  - = Will be held approximately 10 working days after the date set for Closing
  - = Conducted at DSCP
  - = Limited to 3 hours (inclusive of both zones)
  - = Question & Answer session will follow the presentation
  - = Will be videotaped
  - = Copies of the briefing charts must be submitted at time of Closing. Names of presenters must also be stated.

Oral Presentations (cont.)

= No Briefing charts will be permitted for use during the Oral Presentations if not submitted at time of closing. Briefing charts may not be altered between the closing and the Oral Presentations.

- Please follow the Technical Proposal submission requirements in the order as stated in the solicitation. This will help to make your presentation clearly understood by the Technical Evaluation Panel.

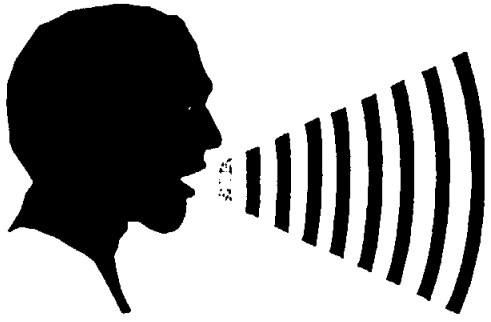
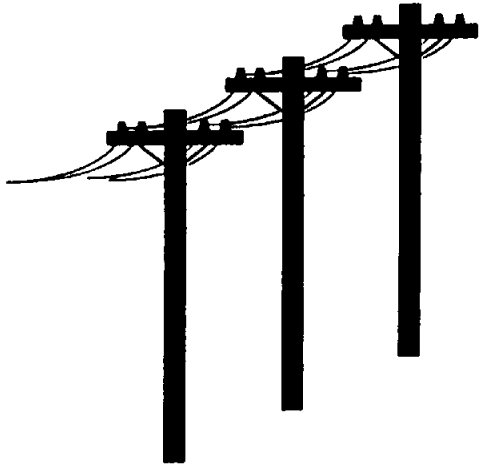
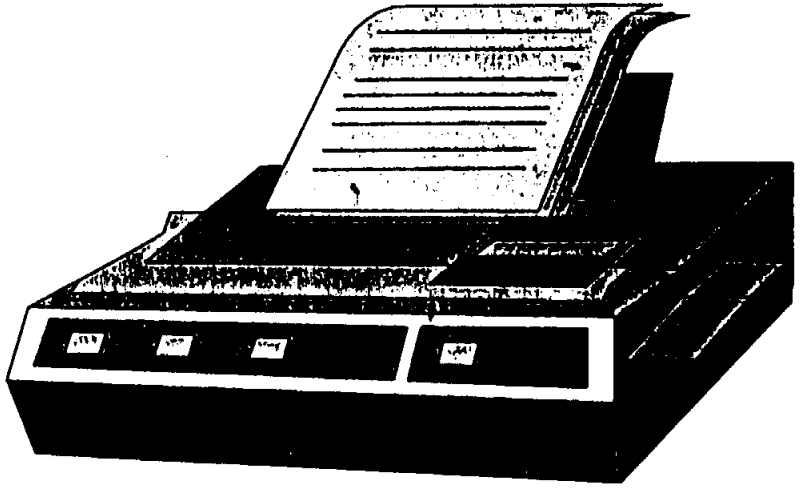
Other Methods of Receiving DOD Orders



Voice





Fax

Supporting America's Fighting Forces

850 Purchase Order

- Customer Number (DODAAC)
- Ship To Information
- Delivery Date
- Item Description
- Vendor Product Code
- Unit of Issue
- Quantity (Vendor Unit)
- Selling Price
- DoD Stock Number
- DoD Unit of Measure
- Purchase Order Number
- FIC
- Line Item Number

Supporting America's Fighting Forces

832 Catalog Update

- Vendor Product Code
- Item Description
- Units Per Purchase Pack
- Package Size
- Package Unit of Measure
- Current Price
- DoD Stock Number
- DoD Unit of Measure
- Economic Indicator
- Comments
- Unit Ratio

Delivery Invoices

- Need to include key data
- DoD Accounting and Finance requirements
  - Contract Number
  - Purchase Order Number
  - Customer Number (DODAAC)
  - Call Number
  - Contract Line Item Numbers

DOD Reporting

- Usage Reports by DOD Stock Code
- Usage Reports by DOD Customer Number
- Pricing Report by DOD Stock Code
- Previous Days Sales
- Previous Periods Service Level
- Minority Vendor Purchases

Summary - Be Prepared To:

- Create and maintain catalog
- Receive orders via EDI
- Receive orders from faxes
- Receive call in orders
- Transmit catalog changes via EDI
- Alter invoices
- Prepare DOD reports
- Monitor minority vendor purchases
