The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). - (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) Period for Acceptance of Offers.

The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) Product Samples.

When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during pre-award testing.

(e) Multiple Offers.

Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

52.212-1 (continued)

(f) Late Submissions, Modifications, Revisions, and Withdrawals of Offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

52.212-1 (continued)

(g) Contract Award (not applicable to Invitation for Bids).

Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple Awards.

The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. ADDENDUM

The following **ADDITIONAL PROVISIONS** are set forth in **FULL TEXT**:

52.233-9000 AGENCY PROTESTS (SEP 1999) DLAD

Companies protesting this procurement may file a protest 1) with the contracting officer, 2) with the General Accounting Office, or 3) pursuant to Executive Order No. 12979, with the Agency for a decision by the Activity's Chief of the Contracting Office. Protests filed with the agency should clearly state that they are an "Agency Level Protest under Executive Order No. 12979." (Note: DLA procedures for Agency Level Protests filed under Executive Order No. 12979 allow for a higher level decision on the initial protest than would occur with a protest to the contracting officer; this process is not an appellate review of a contracting officer's decision on a protest previously filed with the contracting officer). Absent a clear indication of the intent to file an agency level protest, protests will be presumed to be protests to the contracting officer.

52.233-9001 DISPUTES: AGREEMENT TO USE ALTERNATIVE DISPUTE RESOLUTION (ADR) (JUN 2001) DLAD

(a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. If unassisted negotiations are unsuccessful, the parties will use alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and with legal counsel (see DLA Directive 5145.1). Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

(c) If you wish to opt out of this clause, check here []. Alternate wording may be negotiated with the contracting officer.

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this address: <http://www.dla.mil/j-3/j-336/icps.htm> **OR** <http://www.dla.mil/j-3/j-336/logisticspolicy/procurementlinks2.htm>..

The following shall apply to all (DSCP) contracts:

1. Force Protection (Background)

The DSCP Subsistence Directorate provides world-class subsistence logistics support during peacetime as well as during regional conflicts, contingency operations, national emergencies, and natural disasters. At any time, the United States Government, its personnel and/or its resources or interests may be the target of enemy aggression to include espionage, sabotage, and/or terrorism. This increased risk requires that DSCP take steps (and ensure that steps are being taken) to prevent deliberate tampering and contamination of subsistence items. The term “force protection” refers to those procedures and plans that in place to safeguard required products.

A. Based upon the above, a determination has been made to incorporate a Force Protection Plan into all subsequent DSCP contracts. Under this force protection plan the vendor is responsible for the following:

1. The vendor will insure that products and/or packaging have not been altered, tampered-with, or otherwise contaminated throughout the manufacturing, storage, and delivery process; and, will inform DSCP (immediately) of any attempt or suspected attempt by any parties, known or unknown, to contaminate supplies. When notifying DSCP of such an event, the following information should be provided:
 - Date of Incident
 - Customer Name, Address, and Phone Number
 - Specific Line Item Affected
 - Observations made by delivery personnel and customers regarding the incident
 - Regulatory agency/agencies involved
 - Were law enforcement agencies contacted?
 - How was the incident resolved, and what conclusions were drawn by the regulatory agency?
 - What changes were made to prevent a recurrence of the event?
2. The contractor’s facility should be secured by fences and/or guards and incoming freight carriers should be required to make appointments 24 hours prior to the delivery of the product. All incoming freight carriers will be inspected and their seal numbers matched and recorded by security personnel.
3. Personnel working at the contractor’s facility should carry identification badges, and procedures must be in place to limit access to sensitive areas of the facility to only those who require it.
4. When possible, background checks should be conducted on all truck drivers. The contractor should remain in constant contact with delivery personnel throughout the workday. DSCP endorses the use of on-board computer software that tracks an entire day for each trailer.
5. Seals should be used at all times, and procedures should be in place to prevent tampering with seals and/or locks once they are placed on the trailer. Procedures will be put in place for the security of the trailer during delivery and the locking of the trailer following completion of the delivery.

B. The Government reserves the right to inspect the contractor’s facility to insure appropriate security measures are in place.

2. Electronic Invoicing by Suppliers via Electronic Commerce/Electronic Data Interchange

Commencing as soon as possible, but no later than February 2004, all suppliers will be required to process electronic invoices. **This will be a condition for contract award.**

An electronic invoicing system will enable expeditious payments by providing a real time system for invoice processing. In an effort to ensure that your firm is paid (promptly) for products that you supply, we (DSCP) want to utilize the best business practices available. The business practices of today reflect increased utilization of Electronic Commerce/Electronic Data Interchange, in effect providing more timely and cost effective ways of information exchange. DSCP –Subsistence is migrating toward the use of available electronic mediums for conducting business with our partners. The Defense Logistics Agency (DLA) is currently undergoing a Business Systems Modernization (BSM) initiative. This (BSM) initiative will change the way in which you currently submit your invoice for payment. BSM conforms to a strict adherence of detailed line item payment in concert with the subject order. Manual paperwork will no longer be a viable alternative for invoicing. Lastly, invoices must be submitted promptly upon delivery in order to receive payment.

Our intention is to provide you with a quick and easy way to submit your invoices for payment and to ensure that the ensuing payments are both prompt and accurate. Efforts have been underway for some time (@ DSCP) to bring resolution to a multitude of payment dilemmas. This has resulted in an increased dependence on Electronic Data Interchange for submission of invoices. Several alternatives are available:

1. If your company is able to exchange information electronically through ANSI X 12 format, we could set-up you company as an EDI vendor (immediately), and you would be able to receive orders and send invoices electronically.
2. There are companies, who for a fee, will turn your flat files into EDI Invoices (810 Transactions).
3. A web-based solution is the Defense Finance and Accounting Service (DFAS) Implemented Web Invoicing System (WinS). WinS application is web-based technology that will create an EDI transaction for the DFAS payment system. For more information and accompanying sample screens, go to <http://ecweb.dfas.mil/notes.html>. This requires creating an invoice line by line on the web, and sending this invoice (electronically) to DFAS for payment.
4. The Market Ready EDI Invoicing is another web application through which to submit your invoices electronically. This system can be found on the DSCP Web Page for Subsistence @ <http://www.dscp.dla.mil/subs/>. You will be issued a User ID and Password after you have properly registered via the noted website. This application will allow you to see your receipts and contract numbers on the website. In addition, you can review specific receipts, and if in agreement, you can simple type-in the corresponding invoice number in order to submit it to DFAS for payment. This receipt information will remain available on the website for eight (8) weeks. The user will also have the ability to add lines or change existing lines to reflect the actual delivery amounts. These changes will then be e-mailed to your DSCP Account Manager (James T. Smith) who will work to resolve any differences, however, your customers must make all corrections electronically. Vendors are encouraged to wait until the receipt is adjusted to submit your final invoices. The system will be updated daily from the corresponding customer receipt files. Invoices submitted using this website will generate an EDI invoice to flow through the payment process @ DFAS. Should you require any additional information on electronic or alternate electronic invoice processing, please

contact the Contract Specialist Lisa Lawrence @ 215-737-4540 or the Contracting Officer William C. Smith @ 215-737-4298.
