- b. Page 16, E-7, delete "paragraph E-13" and insert "clause E-6."

- c. Page 35, E-6., delete existing clause and insert:

"E-6. Operational Ration Component Lot Number and Lot Inspection

The component lot number for thermostabilized (retorted) products packaged in flexible pouches shall be defined as the Julian lot number assigned at the origin manufacturer's plant and the inspection lot shall include only product produced in one workshift. For products packaged in tray pack containers (metal/poly) and other products (including the FRH and final assembled lots), a lot number is defined as the quantity of finished product produced/assembled within a production day (Julian date) and the inspection lot shall include product produced in no more than one production/assembly day. The Government QAR reserves the right to separate an inspection lot into smaller inspection lots. The Sample for Government and contractor's end item lot inspection may be drawn after all units comprising the lot have been produced or samples may be drawn during production of the lot. If stratified sampling is utilized (drawing subsamples from each subplot/subcode during production of the lot), the subsamples must be drawn at random from the subplot and not inspected until all the subsamples are combined to makeup the complete sample for the applicable lot size (the formation of the lot and lot size is defined as the manner in which the lot is to be presented for Government end item verification inspection."

- d. Page 38, E-10., B., at end of paragraph "2. Food Safety and Foreign Material:" insert new sentence:

"Retesting/reinspection/rework of product that tested positive for food borne pathogens (salmonella, e. coli, etc.) is not authorized."

- e. Page 42, E-12-C., delete paragraph (2)(b) and insert :

"(b) Lots can be split into more than two portions. However, subcodes within the lot shall not be split. The contractor shall carefully document what lots are split and how and among what assemblers."
